By Barry James International Recald Tribune

PARIS — As the European Community prepares for a single market on Jan. 1, support for Community membership is picking up in Britain, Denmark and Ireland hut declining in France, Germany and the Benelux countries, an IHT poll shows. The poll indicates that people are overwhelmingly favorable to EC

membership in the southern tier of member countries — Portugal, Spain, Italy and Greece — but also that ignorance about the Community is greatest in those countries The poll also revealed:

• Widespread criticism in the northern countries over France's action in protecting its farmers at the risk of a trade war with the United States.

• A suspicion in those countries that Jacques Delors, president of the EC Commission, puts personal ambition ahead of Community

Interests. In a similar poll conducted in September, at the time of the French referendum on the Maastricht Treaty on European Union, only 56 percent of those questioned in Britain, Denmark and Ireland said they were in favor of EC membership. This month's poll indicated that 70 percent of people in those countries now favor Community membership, despite strains in the European Monetary System and doubts about political union. The poll did not make a distinction between the Irith, who are generally under European doubts about political between the Irish, who are the most skeptical in the Community. Overall, 79 percent of people questioned in all 12 countries said they favored EC membership, compared with 77 percent in Septem-

Although the gap has narrowed, northern Europeans are still way behind their southern partners in enthusiasm for the Community. In September, 83 percent of those questioned in the four southern countries said they were in favor of EC membership. This time, 88 percent said they were in favor.

But in those countries, 70 percent of those questioned conceded that they knew little or nothing about the Maastricht treaty and only 2 of 100 said they knew a lot. While people in the northern countries were more skeptical about the Maastricht treaty, they also said they knew more abont it — 39 percent said they knew something about the treaty, while 60 percent said they knew little or nothing.

The poll, conducted for the International Herald Tribune by Continental Research of London, has a margin of error of plus or minus three percentage points.

The percentage of people in Germany and France who said they favored EC membership declined to 74 percent from 82 percent after the French referendum in September. In the Benelux nations — Belgium, the Netherlands and Luxembourg — where pro-EC sentiment has traditionally been among the strongest; the number of those saying they favored membership declined to 83 percent from 86 percent.

Asked whether they favored allowing more East European prod-ucts into the Community, 40 percent replied affirmatively, 36 per-cent said there should be no change and 13 percent said there should be less. Fifty-four percent said the Community was oot doing

U.S. and U.K. Warn Serbia **Of Tougher** Sanctions

Bush and Major Declare Readiness to Enforce Bosnian 'No-Fly' Zone

By Michael Wines

New York Times Service WASHINGTON — President George Bush and Prime Minister John Major of Britain, expressing rising alarm over Serbian aggres-sion, pledged Sunday to quickly ask the United Nations for new pressure to end Serbian Jin-Nations for new measures to end Serhian air-craft flights inside Bosnia, probably by force. U.S. administration officials later said the

two allies would seek a UN resolution this week ordering an end to the Serbian flights, perhaps by bombing airfields they use, and that NA-TO's European members were likely to lead in carrying out the operation.

Speaking at the White House after a weekend David, Maryland, the two men indicated they also favored tougher diplomatic and financial restrictions on Serhia unless it undergoes what Mr. Major called a "rapid and radical" change in its behavior.

Mr. Major said the allies would ask the United Nations to place human-rights observers in Serbia's province of Kosovo and in Macedonia.

The United Nations passed a resolution in October ordering Serbian aircraft to cease operations in Bosnian airspace and succeeding in ending sporadic combat missions. But it has not stopped small planes and helicopters from conducting hundreds of support missions, such as ferrying troops and supplies.

Both Mr, Bush and Mr. Major were said to feel that those missions must also be stopped, or that the United Nations' already wavering authority in the war would be completely un dermined.

Officials said Sunday that the U.S. and British proposal would set a deadline for Serhia to end all aircraft operations and include undeter-mined measures to deter Serbia from retaliating. against UN forces on the ground in Bosnia,

In a televised interview, Defense Secretary In a televised interview, Detense Secretary Dick Cheney said the two allies had discussed giving Serbia 15 days to end its flights, during which UN forces oo the ground could sharpen their defenses and humanitarian groups could gird for retaliation. Mr. Bush and Mr. Major said no specific deadline had been agreed on. Even so, it was far from clear how much the UN Secretic Council or a group US subject in

UN Security Council, or even U.S. allies in Europe and Asia, would tolerate any action that increases the international military role in

the fighting.

Outlook Turns Dim For World Economy Analysts Trim 1993 Forecasts As Europe and Japan Wane

year, with the jobless rate there climbing to almost 11 percent. According to the Institute for International Economics, a Wash-By Steven Greenhouse New York Times Service

WASHINGTON - As a result of a surprisingly deep slump in Eu-rope and Japan, the world economy will grow far more sluggishly next year than was predicted just a few months ago, economists say. Not only will this hurt American exports and make it harder for the U.S. economy to pick up speed, it also could force President-elect Bill Clinton to concentrate more on sparring the economy short-term than on the long-term measures he says are needed to put it back on track. The sluggish growth may also push Mr. Clinton to jawbone Japanese and German leaders to do far more to promote growth, econ-

omists say. The overseas slump, they say, could mean the difference between respectable growth in the United States next year, with unemployment falling substantially, and another lackluster year with the jobless rate hovering above 7 percent. In a forecast to be released Tuesday, the International Monetary Fund predicts that growth in the industrial world will be a modest 2 percent next year, considerably lower than the respectable 3 percent growth it predicted just three months ago. The report says that largely because of a recession in

Bush Sees 'Real Progress,' but No START Pact

Compiled by Our Staff From Dispatcher WASHINGTON — President George Bush said Sunday that the United States and Russia had made "real progress" in strategic arms reduction talks on additional cuts in long-range nuclear weap-ons hut were not ready to sign a START-2 treaty

Mr. Bush's remarks were intended to dispel ambiguity after comments made by President Boris N. Yeltsin. The Rus-sian leader surprised officials here last week when he declared that a START-2

agreement would be signed before Mr. Bush was succeeded by Bill Clinton on Jan. 20.

Mr. Kostikov disclosed no names or

"I can tell you it's not agreed totally," Mr. Bush said after a 35-minute tele-phone conversation with the Russian leader. We've made some real progress." Mr. Bush did not elaborate on what

progress had been made in the nuclear arms negotiations, but U.S. officials sought to dampen speculation that the two presidents might meet in Alaska to sign an accord early next month.

The START-2 accord, reached during Mr. Yeltsin's visit to Washington in On Friday, during a meeting with 300 intellectuals in Beijing, Mr. Yeltsin broke from his prepared text to suggest that the treaty was ready to be signed. June, would cut the two nations' current stocks of 22,500 nuclear warheads by "Preliminarily, I can say that an agreetwo-thirds over the next decade. It would

eliminate all land-based multiple warment is prepared on START-2 in global cuts in strategic weapons by two-thirds between America and Russia, and can be signed by January next year," he said. Later, he said, "I have no reservations head missiles, the most dangerous and destabilizing in either country's arsenal. The officials said that several technical issues were still unresolved, and that on the treaty," and an aide added that the signing would take place Jan. 4 in Alaska. (Reuters, NYT) these related to missile-silo conversion, the number of warheads on missiles and bomber-counting rules.

China, a Security Council member with vet power over UN actions, has been publicly skep-

tical of such proposals. Mr. Bush and Mr. Major treaded lightly around the question of how the ban on Serbian flights would be enforced. Mr. Major said the allies have "got a lot of discussing to do" on that issue.

Mr. Bush and Mr. Major also said they would seek new UN action to end an Iraqi food and other aid to kurds in northern Iraq. Iraq has recently begun to hinder the relief efforts by planting bombs in UN trucks carrying food and other supplies, forcing the United Nations to suspend the aid program. An administration official said later that the

'One Chance' to Save Family

By William Booth Vashington Post Service

MIAMI - Orestes Lorenzo Pérez, the Cuban military pilot who defected last year in a Soviet-huilt MiG-23, said Sunday he was either going to return to Cuba and free his wife and two young

sons — or die trying. Mr. Lorenzo, 36, did not die. Instead, the Cuban major, who is considered a traitor by the govern-ment of President Fidel Castro, secretly flew an aged six-passenger Cessna 310 from Marathon in the Florida Keys to Matanzas in Cuba, where he landed on a crowded road, picked up his wife and sons and returned to the United States.

"I came in very low, very low, about 10 feet above the waves," he said, "and I saw the bridge near Matanzas. I banked hard. I saw a car, a truck and bus on the road." His eyes red from almost three days without sleep, he continued: "There was a concrete barricade. A street sign. I banked again and landed hard, fast. I had one chance to land. One chance. That was it."

Mr. Lorenzo's wife, Victoria, 35, and their two sons, Reyniel, 11, and Alejandro, 6, ran to the aircraft. His youngest son lost his shoes as be ran to the plane.

The family had been waiting. Through coded

phone calls and with letters and diagrams deliv-ered by friends, Mr. Lorenzo's wife and sons knew to be by the side of the Matanzas road Saturday, about an hour before sunset.

After a dramatic takeoff from the same road, the family returned to Marathon, where they were met hy a handful of friends and supporters, including Kristina Arriaga, executive director of the Valla-dares Foundation in Alexandria, Virginia, e Cu-ban-exile group headed by Armando Valladares, a former political prisoner in Cuba.

Cuban officials in Washington could not be reached for comment.

After Mr. Lorenzo defected, his family, though they had visas, were forbidden to leave Cuba. Mrs. Lorenzo said that Cuban officials told her she would never leave Cuba and that she should forget her husband, who, they told her at various times, was a traitor, a homosexual, or was planning to marry another woman.

"I never believed them," she said. Miss Arriaga said: "This is not a man who talks. He acts. He told me if he wasn't back by 6:30 P.M., he was in big trouble." Mr. Lorenzo said that he had no assistance from

See PILOT, Page 6

bia's isolation from the world. Mr. Milosevic has pledged in continue the "Greater Serbia" policies that for two years have initiated bloody land-grabs in Croatia and Bosnia.

Ensure Stability in a Shaky Asia, Malaysian Urges Clinton

The Democratic administration be-ing formed by President-elect Bill Clinton is likely to introduce significant changes in U.S. policies toward Asia. Najib Razak, the Malaysian defense minister, discussed some of the region's major concerns with Michael Richardson of the International Herald Tribune.

Page 2

Pa

-

Q. The Clinton administration will have to tackle many difficult domestic prohlems when it takes office. Are you worried that some of the policies outlined by the president-elect and his advisers will have an adverse impact on security and stability in the Asia-Pacific region?

A. I think we have all conditioned ourselves to expect a greater reduction of American forces in Asia. It is inevitable. Perhaps it might have been slightly less in quantitative terms had there been a second Bush administration. Certainly, we expect a more significant reduction under a Clinton administration.

But the real crux of the issue is whether there will be the political commitment to ensure peace and stability in very critical areas like the Korean Peninsula. A reduction in forces must not be matched hy a decline in American resolution to ensure

MONDAY Q&A

that there will be oo military conflict. If troop withdrawals are accompanied by a perception of weakness in U.S. political commitment, then you will see an aggravation of military conflict, particularly on the Korean Peninsula.

Q. Democrats in Congress are more inclined than Republicans to make Chi-na's trade access to the giant U.S. market conditional on its human rights record. Is this a dangerous tactic?

A. There must be a point beyond which countries should not transgress in terms of human liberties, freedom and democracy. But at the same time, one also has to look at ensuring stability.

China can ill afford a hreakup of the kind that is now happening in Europe. In China, there could be ethnic and religious conflicts on a scale which the world has never seen before.

A China that is intact, although with certain limitations on freedom and democracy, is a better option than a China in turmoil and unstable.

In terms of economic policies, China is moving very right, although in terms of political ideology, it is still very left. But compared to what China was before, this is a marked improvement. We should want China to change. But let it be an evolution, rather than a revolution.

Q. Mr. Clinton and his advisers have indicated that they will be tougher in pursuing fair trade with Japan. Could this sour the security relationship between the two countries and thus push Japan toward developing its own inde-pendent military capabilities? A. There is a growing sector in Japan that wants the country to be more asser-

So I would expect the security relationship to remain intact, despite any shift in

American trade policy. Q. Do you fully accept the assurances by China's prime minister, Li Peng, on his recent visit to Hanoi that Beijing will never use military force to pursue its territorial claims in the South China Sea or elsewhere?

A. It is the same assurance that was given to me by Li Peng when I visited China in August. He said very categori-cally that China had no intention of filling any power vacuum left by withdrawal of U.S. and Soviet forces from the region. We welcome that statement. Nevertheless, all members of the Association of South East Asian Nations are watching developments in China, particularly its program to modernize the armed forces. For as long as that program remains defensive in nature, I think that ASEAN would be quite reassured.

Q. Does the sale by Russia of Su-27s and MiG-31s to China worry you?

A. A few squadrons of Su-27s and MiG-31s would oot make all that great a difference. But if China develops ouclear submarines, acquires aircraft carriers and develops its bases in South China, we would see that as developing the ability to project military power way beyond its shores. Any serious development of Chi-na's strategic capabilities would increase the level of concern in the whole of East Asia.

Q. Should Japan be playing a more active security role in East Asia? A. We would like Japan to assist in the

economic, social and technical development of Southeast Asia. It can do so by providing more investment, better access to the Japanese market, a greater transfer of technology and helping to free world trade. That would help us to grow and prosper, strengthening comprehensive security in the region.

New Video On Mosque Fans Anger In India

The Associated Pres NEW DELHI -- The police used tear gas and clubs Sunday to disperse hundreds of Hindu dem-onstrators, and theu briefly detained a leader of the Bharatiya Janata Party when he led an outlawed protest,

The demonstration followed the disclosure of new evidence that the demolition of the Babri Mosque in Avodhya had been planned, and was not the spontaneous action of a mob as originally portrayed.

The region's police chief said he refused the Bharatiya Janata permission for the meeting because it might have ignited fresh tension. The razing of the mosque Dec. 6 triggered a week of nationwide Hindu-Muslim riots in which more than 1,200 people were killed and 5,000 injured.

A Janata leader, Atal Behari Vajpayee, was briefly detained after he led about 200 people from party beadquarters for a rally. Later, an estimated 1,500 Janata activists tried to break through a security cordon around the stadium, Press Trust of India reported. The police used force to disperse them.

A six-hour videotape of the mosque destruction showed that only 25 to 30 youths initially crossed police barricades to invade the mosque. They hammered at it with pickaxes and crowbars.

For the first 15 minutes, a few dozen people scrambled onto the three domes of the 16th-century

Aide Offers to Quit After Taiwan Vote

been up for election on Taiwan Compiled by Our Staff From Dispatches TAIPEI - The secretary-generand also the first time that candial of the governing Knomintang, or Nationalist Party, offered his resig-nation Sunday after a stunning pardates were allowed to discuss any issue and make any criticism without fear of punishment. "We may be on the road to a ty setback in elections for Taiwan's

first fully democratic legislature. Secretary-General James Soong offered to step down in a letter to President Lee Teng-hui, saying the results of Saturday's elections were worse than expected. The ruling party won a much smaller majority than it had forescen.

Jaw Shao-kang, the biggest win-ner in the election, who ran without party endorsement, said many in Taiwan voted against the Nationalists because Mr. Soong had nomi-nated too many wealthy candidates with business ties.

The unexpectedly strong support that voters gave to opposition can-didates is considered likely to speed change on the island.

The Knomintang has ruled Taiwan for more than 40 years. The opposition Democratic Progressive Party, formed illegally six years ago, emerged with nearly one-third of the seats and far more credibility than before. The result seems likely to be a

more institutionalized two-party system, an increasingly assertive legislature, and mounting pressure within the Knomintang for a cabinet shuffle and more rapid political and social change.

This is the dawn of a new era," said Parris H. Chang, a political scientist at Pennsylvania State University who returned to his native Taiwan as a candidate for the opposition. Professor Chang woo a at and will take a leave to serve in the legislature.

bipartisan democracy," said Jason C. Hu, the chief government Just as important as the emergence of a two-party system may be the tendency for the Democracie Progressive Party to become more of a loyal opposition with greater

faith in the system. In the past, legislative sessions sometimes degenerated into brawls, but the op-position seems to have mellowed considerably this year.

The Nationalists retained 96 seats in the 161-seat Legislative Yuan, but their share of the vote dropped to a record low of 53 percent, down from 60 percent in the

legislative election in 1989. (AP, NYT, Reuters)

Laotians Voting For Legislators

BANGKOK (UPI) - Laotians voted Sunday in the Communist country's first National Assembly elections since a new constitution last year gave increased powers to elected representatives and cemented market-oriented economic changes. The election results will not affect the Communist Party's

17-year monopoly on power. All of the 154 candidates for the 85 seats were approved by the rul-ing Lao People's Revolutionary Party, as the Communists call elves, although some report-

In recent years the government

and free enterprise to restart a

WORLD BRIEFS

Kim, South Korea's President-Elect, Pledges Continued Close Ties to U.S.

SEOUL (AP) — President-elect Kim Young Sam told President George Bush Sunday that his administration would maintain close relations between Seoul and Washington.

"I will do my best to further improve our relations together with President-elect Bill Clinton," Mr. Kim told Mr. Bush, who telephoned to offer congratulations. Mr. Kim also thanked the outgoing president for "working for the peace and stability of Northeast Asia," his aides said.

Mr. Kim, 65, of the governing Democratic Liberal Party, was elected Friday to succeed President Roh Tae Woo. During the campaign, Mr. Kim said be would maintain South Korea's policy of enlisting pressure from the United States and other Western naoons in an attempt to force Communist North Korea to abandon its suspected development of nuclear weapons.

North Korea announced Saturday that it would boycott a scheduled meeting between the rival sides' prime ministers next week. It cited disputes over a U.S.-South Korean military exercise planned next year.

Khmer Rouge Free 11 UN Hostages

PHNOM PENH (Reuters) — After four hours of negotiations, Khmer Rouge guerrillas on Sunday unconditionally released 11 United Nations peacekeepers they had kidnapped and threatened with execution, a United Nations spokesman said. The confrontation in Kratie Province in eastern Cambodia was the

most serious yet between UN personnel and the guerrillas, who are refusing to implement a peace agreement for Cambodia signed last year. The 11 UN personnel — a Uruguayan officer, seven Uruguayan soldiers, an interpreter, a Russian helicopter pilot and a Russian military observer — were in good health and unharmed after their two-day ordeal, said Erie Falt, spokesman for the UN Transitional Authority.

French Senate Approves Fabius Trial PARIS (Reuters) — The French Senate voted Sunday to follow the National Assembly and send former Prime Minister Laurent Fabius to

trial in the AIDS-tainted blood transfusions affair. The Senate decision, by 286 votes to 1 with 2 abstentions, cleared the way for Mr. Fabius, now leader of the governing Socialist Party, and two former ministers to stand trial before a parliamentary High Court on charges of failure to assist persons in danger. The Socialists initiated the legal moves in Parliament in view of public

outrage over their decision last week to avert such a trial. The motion said the former Socialist social affairs and health ministers, Georgina Dufoix and Edmond Herve, should also stand trial.

Madrid Shopkeepers Battle Police

MADRID (AP) - Thousands of shopkeepers gathered in the heart of Madrid's commercial district Sunday, clashing with the police in a protest

over the long hours kept by large department stores, news reports said. The demonstration became violent as some of the estimated 6,000 protesters — many owners of small- or medium-sized shops — tried to move their demonstration into the huge department stores around the Puerta del Sol area, the EFE press agency reported. At least four people were injured as the police beat demonstrators with billy clubs and shot

tear gas into the crowd, the regional Telemadrid television reported. The shopkeepers were demanding a law that would cap business hours at 60 per week and limit department store hours on Sundays and holidays, TVE state television said. Shopkeepers' unions say a 1985 bberalizing store hours has forced many smaller shops to close to reduce

Deal Is Set to Reopen Angola Talks

LISBON (Reuters) - The opposition movement UNITA has agreed to withdraw its troops from two northern Angolan towns and resume talks with the governing Popular Movement for the Liberation of Angola, a U.S. official said Sunday. Acting Assistant Secretary of State Jeffrey Davidow, who met with

MPLA representatives and the leader of the National Union for the Total Independence of Angola, Jonas Savimbi, during a four-day visit to Angola, told the Portuguese radio station TSF that talks between the two sides could begin in the next few days.

For the Record

Iran's Council of Guardians confirmed Sunday that next year's presi-dential election would be held June 11, Tchran radio reported. President Hashemi Rafsanjani is expected to run for another four-year term. (AP)

TRAVEL UPDATE

Israel's Expulsion of Activists Is Uniting Intifada Factions

By David Hoffman

Washington Past Service JERUSALEM — Isracl's expulsion of 418 suspected activists in Islamic fundamentalist movements, and the fatal shooting by Israeli soldiers of six Gaza Strip demonstrators, has begun to galvanize long-divided Palestinian facoons, the result opposite to what Israel intended.

On Sunday, for the first time since the Palestinian intifada, or uprising, began five years ago, two rival powers behind the revolt - Hamas, the Islamic resistance movement, and the underground intifada lead-ership dominated by the Fatah faction of the Palestine Liberation Organization - issued a joint leaflet carry-

ing a common appeal for protests. The leaflet, widely circulated in the occupied territories, declared that the two factions had reached an agreement "to unify the means of struggle against the Israeli oppression in order to bring back our deported brother

Both Hamas and El Fatah have reached agreements before to cool their rivalry, but this appeared to be the first time they had issued such a joint appeal. Usually, they publish separate, and sometimes highly critical, monthly leaflets. Only two weeks ago, a Hamas leaflet attacked the PLO and urged members of El Fatah to

"pull the rug from under its leadership." The two groups announced Sunday that they were canceling all recently called strikes and urged instead "a comprehensive escalation" against Israel. They also urged the "strike forces," or violent gangs of both organizations, "to cooperate together in the field."

When Israeli officials announced the expulsions last week of suspected Hamas and Islamic Jihad members, they said the purpose was to cripple the Islamic fundamentalists and thus, at least indirectly, help the nainstream Fatah faction of the PLO, which is behind the Middle East peace talks,

But there were growing signs Sunday that Palestinians were closing ranks against Israel. At a rally in East Jerusalem, both clerics and secular Palestinians railed against the deportations.

"This is a war against anyone who prays in a mosque," declared Hayan Idreesi, head of the Islamic Court. "This is a war against traditional dress, against the Koran and all Muslims."

"Does this mean everyone against the peace process exiled and thrown out of the country?" he said.

Haidar Abdel Shafi, the head of the Palestinian delegation, said the group would not resume negotia-oons with Israel until the deportations were reversed. Sari Nusseibeh, an academician and adviser to the peace talks delegation, told reporters: "There's a lot of anger, a lot of frustration. If anyone thought the intifada was subsiding, recent events awakened the fire. We are now at a criocal juncture - the peace process is threatened. The mood is toward ending the Deace Drocess.

see them return to the negotiating table," he said, confrontation with border police. Witnesses said Rabin refused. They also urged him to referring to the Palestinian delegation. "There is a youths were throwing stones from a mosque, and, in tions in the territories, but be demurred.

Meanwhile, the deported Palestinians remained huddled in tents on a hillside in the chilly mountains of southern Lebanon. That country has refused to admit them to territory it controls, and Israel refused to let them back into the southern Lebanon security zone it controls.

Prime Minister Yitzhak Rabin of Israel said Sunday that he thought it would be a "mistake" on the part of the Lebanese government to try "to push them back into our area."

He added, "It will be a major mistake. We are determined."

Lebanon's prime minister, Rafik Hariri, told Reuters: "There is absolutely no way we will change our position. Never, ever."

Israel's High Court of Justice on Sunday heard appeals from rights lawyers who sought the return of the deportees on grounds that Israel had not sent them to another country as required, and must permit them to return. The court is expected to rule Monday.

Israeli officials testified that Lebanon would eventually accept the prisoners. At the same time, relatives of a slain border policeman, Nissim Toledano, petitioned the court not to allow the deportees back in.

In the Gaza Strip town of Khan Younis on Sunday,

Hamas officials in Jordan said they would attend a meeting with the Palestine Liberation Organization this week in Tunis. Meanwhile the deported Palestinians remained and arrests made. In the past, Israeli troops have and arrests made. In the past, Israch troops have generally refrained from entering mosques.

stalled economy.

villages.

The six Palestinians who were killed Saturday in Khan Younis were all shot in the chest and head, which raised questions among Palestinians about whether Israeli soldiers have changed procedures for firing at demonstrators, who are often shot in the legs. The military's chief of staff, Ehud Barak, said in a vision interview this weekend that the rules were being "fine-tuned."

Sunday night, a top Israeli commander for Gaza. Yom Tov Samiya, told state-run Israel television that in the Khan Yoanis confrontation, in which youths were throwing stones at soldiers, "we already activated techniques of shooting and determination against the disturbances, the significance of which was the hitting of two armed men in the middle of the crowd and that's oot an easy, simple thing." He did not elaborate.

Meanwhile, the deportations continued to roil the leftist Meretz party, whose ministers in the Rabin cabinet voted for the deportations, except for Justice Minister David Libai, who abstained. Many grass-roots Meretz members have expressed anger at the ministers' votes for the deportation scheme.

The Meretz ministers met with Mr. Rabin and urged eace process." "At the moment it is not at all clear that we will ever six Palestinians were wounded by rubber bullets in a him to begin a formal dialogue with the PLO, but Mr. ex them return to the negotiating table," he said confrontation with border police. Witnesses said Rabin retured. They also urged him to relax condi-

Rome's city council, in an ano-pollution measure, issued a ban Sunday on private cars in the capital, effective for three hours Monday. Only public transportation will be allowed on the streets, along with private cars fitted with special exhaust filters. (AFP)

Maintenance workers at Air Algérie, Algeria's national airline, have returned to work after a pay strike that began Tuesday, the official press gency APS said. (Reuters)

A fire early Sunday morning heavily damaged one of Edinburgh's leading hotels, the Scandic Crown. There were no reports of injuries at the hotel, which was used by delegates to the European Community meeting last week. The cause of the fire has not been determined. (Reuters) The Beverly Hills Hotel, in Beverly Hills, California, will close Dec. 28 for two years of renovation estimated to cost at least \$100 million. (LAT)

This Week's Holidays

Banking and government offices will be closed or services curtailed in the following countries and their dependencies this week because of national and religious holidays:

MONDAY: Malawi.

WEDNESDAY: Japan, Monaco.

THURSDAY: Anstria, Cyprus, Czechoslovakia, Denmark, Finland, Germany Jacao, Monaco, Portugal, Sweden, Vatican City.

FRIDAY: All countries except: Afghanistan, Albania, Algeria, Bahrain, Bhutan, China, Cuba, Egypt, Ethiopia, Iran, Iraq, Israei, Japan, Kuwait, Libya, Mauritania, Mongolia, Morocco, Nepal, Oman, Qatar, Sandi Arabia, Somalia, United Arab Emirates, Yennen.

SATURDAY: Andorra, Australia, Austria, Bal ames, Barbados, Belize da, Botswana, Britain, Brunei, Canada, Cyprus, Czechoslovakia, Denarat, Finland, France, Germany, Ghana, Gibraitar, Greece, Grenada, Gustemala, Guyana, Hong Kong, Hungary, Iceland, Ireland, Italy, Jamaica, Kenya, Lesotho, Liechstentein, Luxembourg, Macao, Malawi, Monaco, Namibia, Netherlands, New Zealand, Nige-ria, Norway, Papua New Guinea, Poland, Portugal, San Marino, Sierra Leone, South Africa, Spain, Striname, Swariland, Sweden, Switzerland, Taiwan, Uganda, Vatican City, Zimbahwe.

OIL & GAS DEVELOPMENT Goh Victorious

CORPORATION PAKISTAN Invitation for prequalification of Turnlay contractors for Gadispur Gas Field Development Project. Oil and Gas Development Corporation (OGDC), a statutary corporation of Polisian, the Operator for Gazimur Joint Venture is understaling a development project at its Gazimur Field under World Bank Enancing. The field is located in the north of the Sind province, some 60 km north of Sudar.

Suttor. The project inter-dia includes the installation of a gas sweetening plant (CO-2 removal reducing CO-2 content from 6.5 mol % to 2.0 mol %), and extensive pipeline gathering system with more than half the wells located on ther River Inclus flood plain. The locilities are required to produce up to 340 MWadd of soles gas plus a nomined quantity of condensate (170 top) and 1500 topd of vater with a system for water disposal considering the environmental impact. ABB Global Engineering Limited, UK have been engaged to provide engineering Consultancy Services including process selection, basic engineering and EPC tender preparation/bit evaluation for the Gastruar Gas Field Development Project.

evolucion for the Gadipur Gas Field Development Project. Reputable general contractors who are capable of performing detailed engineering, monufacturing, supply, installation, testing, and commissioning of the plant, utilities and all offsite facilities and who have successfully performed the same kind of work in the recent post, are invited for pregualification as unkey contractor for this project. Prospective contractors may obtain the propublication (FG) document on or before 6 January 1993, from either of the following on payment to non-refundable fee of U.S. Dallars 1,000 (for purchase in U.K.) or Rs 25000 (for purchase in Palastan).

power within both his party and the government, diplomats said.

"The huge majority of almost 73 percent will help Gob to consolidate his political position," a university academic said. "Reduced electoral support could have led to a power struggle within the cabinet and phunged the country into political uncertainty."

Last year, in the first general election Mr. Goh ordered as prime mioister, after succeeding Lee Kuan Yew in November 1990, the governing People's Action Party won 77 of 81 seats in Parliament, centage points, to 61 percent.

AMERICAN TOPICS

Racial Sturring Lingers On In Some Antique TV Movies

Television has come a long way toward ridding itself of racial and ethnic stereotypes. But slurs linger on in antique movies that television airs, ootes Howard Rosenberg, TV critic of the Los Angeles Times.

One example is "Mark of the Whistler," a 1944 thriller. In a nightclub scene, the men's room attendant is "black, and terrified, and bug-eyed and shuffling, and a close likeness of Stepin Fetchit."

In the 1939 elassic, "Stagecoach," st-tacking Indians "don't have the smarts to pull off a successful ambush." Instead, they begin whooping and hollering from behind, and at one point get systematically picked off while mindlessly riding parallel to the stagecoach."

About People

In the new book, "This Is Orson Welles," Peter Bogdanovich quotes the ate film giant: "The true movie actor can never be too strong. What he must not be is too broad." Thus, James Cagney "was one of the higgest actors in the whole history of the screen." Why? Cagney was focused "like a laser beam."

Short Takes

Private individuals can now subscribe to the same toll-free telephone service that has become a mainstay for many businesses. Customers for the personal 800 number include college students' families, flight attendants, truck drivers and others who travel. From virtually none in 1989, 1.5 million people now have \$00 numbers, or nearly 2 percent of U.S. phone customers, according to Yankee Group, a Boston technology research firm.

WASHINGTON - lo a campaign year that saw the influence of awyer-lobbyists become a bigger issue than ever before, no one typifies that style of business more than that he used his political ties for Ronald H. Brown, President-elect Bill Clinton's choice for commerce secretary.

Mr. Brown's resume is fat with representation of foreign govern-ments and interests, from Haiti to Japan. He continued in lobby on behalf of his law firm, Patton, Boggs & Blow, and his own busi-nesses after becoming chairman of the Democratic National Committee in 1989 and saying he would

play no active role io the firm. Io several instances, he has ap-peared before the Democratic-con-trolled Washington government in successful efforts to win contracts for his own businesses, and he has remained a lobbyist for Denver and Wayne County, Michigan, which includes Detroit and its suburbs.

As commerce secretary, Mr. Brown will rank as one of the senior U.S. policymakers on interna-tional and domestic trade and technology issues. Thus, his business dealings, particularly while be was the chairman of the Democratie Party, are expected to be a strong focus of his confirmation hearings. By law and custom, Mr. Brown will have to resign his partnership at Patton, Boggs and curtail busi-

ness dealings once he becomes a member of Mr. Clinton's cabinet. There are no conflict-of-interest rules restricting the business affairs of party chairmen.

Democratic National Committee, Mr. Brown refused repeated requests to talk about bis business dealiogs or about ethical issues he will face in confirmation hearings. He has bristled at suggestions personal profit, insisting that be has kept his political and business

lives separate. He calls himself an inactive member of Patton, Boggs & Blow, where his pay was reduced to an undisclosed sum after he became party chairman,

Mr. Brown, 51, rose in political circles from a job as spokesman for the National Urban League in the 1970s in Senator Edward M. Kennedy's deputy campaign manager in the 1980 presidential contest. The oext year be was named a partner at Painn, Boggs & Blow, one of the most powerful and well connected firms in Washington. The firm's clients have included the governments of Oman and Gabon, as well as the Emirate of Abu Dhabi in its legal problems over Bank of Credit and Commerce In-

ternational. Chairmen of both political parties have continued to do party and personal business simultaneously. A recent study by the Center for Public Integrity, a research organi-zation in Washingmo that investi-gates ethics issues, found that since 1977, half of the elected national

party chairmen had received out-side income from corporations or law firms during their tenures. But the study also found that

★ POLITICAL NOTES★

Clinton's Advisers Urge Deeper Deficit Slash

WASHINGTON — President-elect Bill Clioton's economic ad-visers are recommending that be trim the deficit more than he had proposed in the election campaign so as to fulfill his pledge of babies the deficit within four unart halving the deficit within four years.

Seeing that estimates of the deficit for the 1996 fiscal year have soared since last spring, his economic advisers said they had called for the deficit to be reduced by about \$145 billion for that year as against the \$90 billion that he originally proposed. Relying on the latest estimates from the Congressional Budget Office, his advisers forecast that the deficit would be about \$220 billion 1906 for higher than the actimate \$100 billion that the

billion to 1996, far higher than the estimate of \$190 billion that the budget office made last March. The advisers said that the estimate had risen for many reasons. One is that spending on health care has increased faster than anticipated.

The advisers made their proposals as part of a menu of options being presented to Mr. Clinton. Four of the advisers, who spoke oo the condition of anonymity, said the options would include volumi-oous plans on the budget, trade, telecommunications, banking and manufacturing technology, converting some military factories to civilian use and building roads, bridges and other infrastructure. Several advisers said his economic team was tentatively scheduled

in meet with him next week to begin choosing options for a

legislative package. The advisers said that when Mr. Clintoo asked them to draft policy options, he did oot ask for tax increase proposals beyond those he suggested in the campaign, notably higher income taxes on people earning more than \$200,000 a year. Many economists say it will be almost impossible to cut the deficit in half without more tax

Clinton Banking on Private Bank Enterprises

WASHINGTON — Unlike the government programs launched 25 years ago when President Lyndon B. Johnson set out to create the "Great Society," the community development banks Mr. Clinton envisions would be private enterprises that use private capital and try to make a profit while providing banking services in the poor. Now working in translate the campaign thetoric into reality, his transition team is collecting advice not only from community activ-justs and ibberel economists but also from heaters who have cm-

ists and liberal economists but also from bankers who have em-braced the idea of community development banks in make loans in low-income neighborhoods despite the implicit criticism of present

banking practices. A coalition of six banking industry groups endorsed the concept in a recent letter in Mr. Clinton. "We look at this as a vehicle for hamessing the private sector without occessarily adding a new layer of bureaucracy or some ocw feature of competition," said Panl Schechere president of the Savings and Community Bankers of Schosberg, president of the Savings and Community Bankers of America (WP)

Press Finds Harm in Bush Press Coverage

WASHINGTON - A majority of U.S. journalists who followed washing for — A majority of O.S. journalists who followed the 1992 presidential campaign believe that President Bush's candi-dacy was damaged by press coverage of his record and of the economy, a survey finds. Only a small percentage of print and broadcast journalists believe that the campaign of Mr. Clinton was similarly harmed. Io fact, more than one in three said that coverage benefited the Arkansas governor. Most journalists interviewed believe that the press treated Mr. Buth fields, and that he new harmed by accurate emoring on his

OPINION

h . . .

Herald Eribune,

A Diary of Disgrace

February 1992: Serbian forces opened s campaign of aggression against the formar region of Yugoslavia called Bosnia-Herzegovina. In short order they launched a re-ientless bombardment of Sarajevo, the historic city that gave living proof that many faiths can coexist. This assault was only the most visible part of the Serbs' harbaric campaign of ethnic cleansing against the Muslim Slavs — 44 percent of Bosnia's 4.4 million people. What did the world do? April 7: The United States recognized Bosnia. Five days later the United Nations disclosed plans to send 100 observers to Bosnia, and the Security Council discussed dispatching 10,000 peacekeeping troops. None of the troops were sent.

Page 4

ć.

None of the troops were sent. April 14: After a Yugoslav army offensive, Bosnia reported "mass massacres" by Serbi-an irregulars. No reliable casualty counts were available but estimates reached the thousands. Hundreds of thousands of refugees fled in terror. What did the world do?

April 14: Secretary of State James Baker condemned the use of force and urged the European Community to issue a joint pro-test, threatening economic and political iso-lation of Serbia. Nothing was done to tighten

the economic sanctions against Serbia. Midspring: The U.S. government received the first unconfirmed reports from Bosnia the inst unconnitined reports from bostua that Serbs were setting up concentration camps in which Muslims were being tortured and killed. By UN estimates, some 30,000 Bosnians were becoming refugees every day. What did the world do? Washington did not press for immediate investigation of the camps. It tried to keep the reports from becoming public. If other countries received

becoming public, it other countries received similar reports, they gave no public sign. May 4: With Serbs in control of half the country, the Bosnian government appealed to the world, with poignant logic, to lift the arms embargo on Bosnia and give it the means to defend itself. What did the world do? The arms embargo remains, to this day. May 7: Nationalist Serbs and Croats in Bosnia agreed to carve up the republic, a process the European Community blandly called cantonment, Five days later the United Nations reported a concerted effort by Bosnia "in the context of" EC negotiations on cantonment. What did the world do? May 14: The State Department expressed

May 14, The State Department expressed concern about "allegations of ethnic cleans-ing." A day later the Security Council backed sending humanitarian aid to Bosnia, but not the armed force needed to deliver it. And the following day the United Nations evacuated its staff of 200 from Sarajevo. Late May: The siege of Sarajevo tight-

ened. Serbian gunners took deliberate aim at civilians, blasting away at bread lines. The Serbian commander, General Ratko Mladic, was overheard ordering his guaners to "drive them crazy" and "burn it all." What did the world do?

May 30: The United Nations finally imposed an economic embargo on Serbia but stopped short of enforcing it. Mr. Baker said: "Before we consider force, we ought to ex-hanst all the political, diplomatic and economic remedies ... " An unnamed U.S. official said: "We are really talking about the need -maybe -to do something next time. Early June: The carnage of ethnic cleans-ing continued. Serbs had by now overrun two-thirds of the couctry, displaciog 700,000 people. What did the world do?

June 6: President George Bush said: We're concerned about the situation in Yugoslavia, but there's no commitment on that." Ten days later the United States agreed to help airlift food and medicine to Sarajevo, but only after a UN force of 1,100 took control of the airport. The United Nations said it could oot send in such a force until a cease-fire took hold. Throughout June; Relentless Serbian

Throughout June: Releatless Serbian shelling continued to reduce beautiful old Sarajevo to rubble. What did the world do? June 26: The Security Council gave the Serbs an ultimatum: Stop shelling Sarajevo and put all heavy guns under UN control or face military action. A senior U.S. official said, meanwhile: "No action is imminent."

July 3: The Serbs temporarily withdrew from the airport but without relinquishing their beavy guns. The airlift began, but only fitfully under intermittent Serbian ahelling. Three weeks later, Roy Gutman of Newsweek visited Serbian-run camps and heard eyewitness accounts of murders and atrocities. Other reporters uncovered rape camps where Muslim women were violated by the thousands. What did the world do? The United States expressed concern and insisted that the Red Cross be allowed into the camps. It said nothing about freeing those imprisoned or punishing the perpetrators. Summer and fall: Serbs conducted hun-

dreds of bombing and strafing raids on Bos-nian towns. What did the world do? Oct. 9: The UN Security Council banned

military flights over Bosnian territory. But it ducked a vote to enforce this ban.

Late autumn: The Serbian air raids slowed, but reconnaissance and troop flights continued. The shelling continued. So did ethnic cleaning. As I many camps still operated, unvisited. By now more than 100,000 Bosnians, mostly Muslim Slavs, were dead or missing. And what has the world done?

Washington, finally, is prodding the United Nation to enfort a no-flight zone over Bosnia - 10th include 100 late. The United States is prepared to lift the arms embargo that effectively keeps Bosnia from defending itself — six months too late. Secretary of State Lawrence Eagleburger has oow denounced Serbian war crimes, doubtless hoping that this would help de-feat the strongman Slobodan Milosevic In Sunday's Serbian election.

But even now Washington, and London, and the European Community, and NATO and the United Nations shrink from forceful actions to counter the Serbs' aggression. and slaughter in Bosnia:

 Attack their big guns and supply lines.
 Send in enough UN troops to secure safe havens in areas now menaced by Serbi-an-sponsored ethnic cleansing.
 Threaten to attack military installations

Serbia unless it stops its brutal aggression Bosnia and the rest of Yugoslavia.

After a year of savage slaughter, mass rapes, ethnic cleansing and undoubted genocide, the world has responded with all the right words. But the question remains:

The Children, We Are Told, Can Be Saved

By Stephen S. Rosenfeld

WASHINGTON — Feeling grim about So-malia? But at least its agony got discov-ered, and ioternational help is on the way. The fact is, its ordeal is merely a more dramatic and televisable form of the desolation that is the normal and largely unattended condition of sev-eral billion people. The number of Somali deaths that has galvanized the world — 300,000 — is about the oumber of preventable child deaths that is quietly racked up every week in the poorest reaches of the Taird World.

It is sobering to contemplate the quirks by which crisis deaths can draw more sympathy and resources than routine deaths, although underdevelopment is the root cause of both.

development is the root cause of both. One who refuses to be oumbed by the irony is James Grant, single-minded chief of Unicef, the international lobby for children. For his holiday gift he has brilliantly packaged, in his annual report, the contention that it is now possible to achieve "one of the greatest goals that humanity could ever set for itself — the goal of adequate food, clean water, safe sanitation, primary health food, clean water, safe sanitation, primary health care, family planning and basic education for

care, family planning and base education for virtually every man, woman and child on Earth." You read it right. Mr. Grant terms it feasible within a decade to give almost all the world's children a fair start — "to bring to an end the age-old evils of child malnutrition, preventable disease and widespread illiteracy." Money-wise, it would take about \$25 billion a year extra, he figures, to be spread among poor countries, rich countries and the international banks.

Mr. Grant is a preacher, but here he is not just preaching, he is drawing an analysis from some little-noted developments of the past decade. The success of Unicef and others in extend-

ing immunization programs lets him say that the "ootreach capacity" oow exists to put the hasic benefits of scientific progress at the dis-posal of the vast majority of the world's poor --and even in the poorest countries. Here it mat-ters greatly that community health workers are cheap to train and field.

Falling fertility rates let him argue that with the annual number of births soon to be stabla or declining, health and education providers can break out of the discouraging trap of having to run just to stay in place. By the world leaders' summit for children that it organized in 1990, Unicef helped local advocates extract an extra measure of pro-child commitment from their

pointcal readers. To steer that communicate from paper to reality is the promise now. With his eye on the global surge of democratic, women's and environmental movements, Mr. Grant suggests that popular demand can alter the ethical climate and make the current daily

toll of 40,000 preventable child deaths as repug-nant and unacceptable as racism. In the big development agencies there is a tendency to admire (although sometimes to bris-tie al) Mr. Grant's style of advocacy and to feel that he emphasizes the small picture of child health over the big picture of society-wide de-velopment. He finds this argument "inhuman" for denying the poor the "few dollars per capi-ta" that would prevent their children from becoming "malnourished, blinded, crippled, men-tally retarded"; and off target in failing to recognize that ehildhood afflictions are causes

as well as symptoms of poverty. You will see that this is not simply a discussion of differences in the development set, al-though it is partly that, but a political argu-ment. Not that they are ideologically hard-

sarily speak first for their bankers, the developed countries. Mr. Grant, a missionary's son, runs an international agency but speaks first for a "con-stituency" of at-risk children. This is how he becomes impatient; with econo-

mists who oppose his preference for "specific targeted interventions" for children; with an international order that puts expensive weapons into the hands of poor governments and expects those governments to pay their debts; and not least with journalists who do not meet his call for "a new kind of journalism-against-poverty." "If today's obvious and affordable stops are

not taken to protect the lives and the health and the normal growth of many millions of young children," he says, "then this will have less to do with the lack of economic capacity than with the fact that the children concerned are almost exclusively the sons and daughters of the poor - of those who lack oot only purchasing power but also political influence and media attention." Abrasive, overstated and, at its core, true.

The Washington Post.

Russia's Western Neighbors Should Have Priority

ONDON - When Boris Yeltsin La cuts short a trip to China and storms back to Moscow crying "The master has to restore order," you can reasonably draw two conclusions, One is that at 1992's end post-Communist Russia has no master, and is resuming its downhill slide. The other is that worried Westerners may therefore have to change their whole way of looking at the ex-Communist zone

to their east. It has always been tempting to see Communist Europe as parts of the same thing. After all, they were all victims of the same historic Marxist-Leninist disaster. They were all part of "the other side" in the Cold War, Surely, most people have thought, they are all in the same boat, and can be rescued together. it is not so. They differ greatly. Some of the smaller countries of castcentral Europe now look as if they can make the leap to economic com-petence and democratic stability far-ly swiftly. Others will take longer. Russia, on current evidence, is going to take longest of all. The West oceds to make up its mind who can do it soon, and who cannot - because the difference calls for two different Western policies. The past week's events in Russia probably toll the knell for President Yeltsin's economic policy, and in the end for Mr. Yeltsin himself. Last Monday, having bungled a fight with his parliament, he was forced to abandon his reformist prime minister, Ye-gor Gaidar. On Saturday he had to race back from China in an attempt to keep the government's other chief re-

N EW YORK - What do we know about Bill Clinton's na-

tional security team? What do these choices tell us about Clinton poli-cies and how they will be made?

ton administration.

Danger: Russians Abroad

By Francis Fukuyama

W ASHINGTON -- The plight of the 25 million Russians outside Russia has become a foreign policy concern of President Boris Yettain's government. In this issue are the seeds of a crisis more dangerous than

the breakup of Yugoslavia. Estonia has passed and Latvia has proposed discriminatory citizenship laws requiring Russians and other ethnic minorities to go through a difethnic munorities to go through a dif-ficult naturalization process during which they cannot vote, own proper-ty or hold certain jobs. These policies may be understandable for historical reasons, given Baltic fears of being overwhelmed by Russians, but dis-crimination is discrimination.

crimination is discrimination. Many Russians have become vic-tims, and the Russian government is understandably upset. At the United Nations in September, Andrei Ko-zyrev, Russia's pro-Western foreign minister, criticized Estonia for violat-ion the superscripts of Russian I. ing the human rights of Russians. In October the Yeltsin government halt-ed troop withdrawals from the Bal-tics to put pressure on local govern-

ments to respect Russians' rights, Io Moldova, Georgia and Tajiki-stan, Russians have killed and been killed in ethnic violence. Increasingly, they are arming in self-defense.

y, mey are arming in served the West The instincts that served the West well during the Cold War may be inappropriate now. It is natural for Americans and Europeans to side with the Baltics and other captive nations that suffered under the yoke of Russian and Soviet imperialism. But the human rights principles that uoderly American foreign policy do oot extend to support for efforts to create ethnically or racially homogeneous nations.

More important, as a purely prac-tical matter, Latvia and Estonia are tical matter, Latvia and Estonia are tiny communities on the border of the world's largest country. It is un-realistic for them to expect protec-tion from the United States or the European Community. They will have to find a way to live with Rus-sia in the long run. It is hard to see how Latvia and Estonia can expect to disfranchise half their popula-tions and remaio viable, stable and democratic countries.

democratic countries. To be sure, Moscow's motives in championing the rights of Russians abroad are in many cases highly sus-pect. Some officials, such as Vice President Alexander Rutskoi, are not entirely reconciled to the loss of empire and would like to use local Rus-

Peace Talks in Trouble

The latest round of Palestinian killings and Israeli deportations has its own special aspect. The killers are oot mainstream PLOtype Palestinians who are seeking at the year-old Middle East peace talks to recover the occupied territorics and set up a state. They are Islamic fundamentalists from the West Bank and Gaza, rivals of the PLO who are opposed to the very idea of Israel as a state, lot alone as a negotiating partner. They have used the openness of Israeli society and the liberality of the Labor government to expand their presence, including the re-cent spate of terrorist killings. The Rabin government, to meet its citi-zens' concerns and its opposition's criti-

cism, felt it had to react but not so harshly as to derail the peace talks. It chose to deport, with judicial sanction and for no more than two years (meanwhile allowing court appeals), some 400 persons; they were singled out not so much as gunmen, who when found can be tried, but as unindicted and untried activists in the fundamentalists' supporting social and financial infrastructure. These terms lost Prime Minister Yitzhak Rabin the backing of Israeli human

rights advocates hot won him the reluctant support of his left-liberal Meretz coalition partners. Meretz had opposed all of Likud's carlier 60-odd permanent deportations.

These crucl events cannot fail to complicate the peace talks. The Israelis will surely stay at the table but they will hardly be in a generous mood; already they were deeply frustrated by the rigid, self-defeating all-or-oothing line being taken by Palestinian negotiators. The Palestinian delegates must cope with further, politically embarrassing fundamentalist charges of selling out; they badly need some further Israeli concessions to help them do their part to break the stalemate.

The Bush administration reacted to this cycle of terrorism and repression with the practiced evenhandedness that has characterized its achievement of starting up peace talks. Bill Clinton deftly did what was required, criticizing the expulsions and show-ing an understanding of Israel's security di-lemma. His broader views on how to manage the peace talks remain to be set out. All that is clear is that he inherits a negotiation whose great promise it is his obligation to fulfill. - THE WASHINGTON POST.

For the World's Poor

Thirty-four countries, including the Unit-ed States, agreed last week to continue the current pace of multilateral aid to the world's poorest countries through the International Development Association. Their three-year pledge of \$18 billion was an encouraging sign of unflagging commitment by the countries that are better off, despite widespread recession and budget deficits.

In real terms, the new pledge is roughly equal to the last one, in 1989, but in effect it works out to a little less. Expanding populations and environmental protection stretch aid funds thinner; also, more governments, including those of the former Soviet republics, are likely to be seeking IDA aid.

The agency's loans are interest-free, and borrowers have 35 to 40 years to repay, with

• • • • • • • • • • • • •

a 10-year grace period to start. To qualify for a loan in recent years a country had to have per capita income of less than \$765 a year, or barely \$2 a day. Sad to say, more than 60 currently qualify. But it is a mark of progress that two countries that once received aid are now among the 34 donors. The United States is still the largest donor,

but barely; in the new agreement the U.S. share shrinks to 20.85 percent while Japan's rises to 20 percent. The U.S. pledge needs affirmation by Congress, which is usually tight with foreign aid funds and may be tighter next year when the focus is on curing domestic ills. Honoring this commitment to the world's desperately poor will be an early test of Bill Clinton's leadership.

cantankerous.

Poland, Huogary and the still-unnamed Czech part of about-to-be-divided Czechoslovakia are the most promising coovalescents.

They have done better at getting their budget deficits under control. They have switched much of their trade away from the ex-Soviet Union to Western Europe. Privatization is going better than in Russia. Production may at last be turning up again, after the unavoidable plunge when the old system was switched off. And these three countries' politics have stood up to the strains of decommunization far more sturdily than Russia's politics have. These are all signs of returning health.

It may before long be possible to say the same of some other places. The three little Baltic states did well in the 1920s and 1930s, before Stalin snapped them up, and will doubtless do well again. Ukraine is potentially a very rich country indeed, and has a better chance than Russia of shed-ding the old apparatchiks who block the way to change. All of these places could be entering the modern world

maker and has no known policy agenda, although be himself wrote

that the secretary of state "must be the architect" of U.S. policy. He thinks case by case. But he can take

any policy paper and find its flaws and make it viable.

Mr. Aspin and I first worked

they are getting at the moment. It is a scandal that the European Community is shutting its doors on membership for the Czechs, the Hun-garians and the Poles until the end of

and evenhanded position, supporting the rights of all ethnic minorities in the century or beyond. It is a bigger scandal that the Community's "trade" the rights of all ethnic mnorities in the region, including Russiana. This might mean applying pressure on Baltic and other post-Soviet govern-ments to liberalize their citizenship and permanent residency laws, even as the West continues to press Russia to wither with force form the foragreements with those three countries put up barriers against exactly the things they can most efficiently sell to Western Europe - food, tex-tiles, chemicals and metal products. If they were allowed to sell three to withdraw its forces from the fortimes as much of these things as they sell oow, Western producers would barely notice the difference. mer Soviet republics. Aid and trade to these states

It is also a mystery why NATO treats them as if they were painted women hanging around outside the barrack gate. There is no reason why they should not qualify for NATO membership as soon as they start negotiations for joining the Community, which should be well before 2000. The alliance of democracics will be grateful for their help in coping with the Bos-nias and Somalias of the future; and they will be grateful to know they are now part of that alliance. Even if the Yeltsio experiment

does fail, Russia is not about to turn back to communism. It has learned that lesson. Nor, if we are reasonably inat lesson. Nor, if we are reasonably lucky, is it about to go on a rampage of nationalist expansion. It is proba-bly too weak, and too self-doubting, for that. But it almost certainly has to nor that, but it almost certainly has to endure many years of confusion, short-lived governments and zigzag policies before it can bring itself to where the Czechs, Hungarians and Poles are oow. That will make it a grumpy old bear.

goslavia, the one in the ex-Soviet states will present the Clinton admin-istration with not just a moral but a major geopolitical problem. Russia could intervene against the Baltics or, worse, confront Ukraine over the rights of Russians in Crimea. Let us hope that the West's tragie reluctance to become involved in Yu-goslavia will not be reported in Yu-It deserves sympathy, encourage-ment and, when help can work, help. telligence community has concluded that Ukraine is more likely than it was a year ago to hold on to some if not all of the former Soviet nuclear weapons still deployed on its territory, U.S. officials have disclosed.

That conclusion is given in a new classified National Intelligence Estimate reflecting a broad consensus mong government analysts that Ukraine is now as likely to keep the nuclear weapons as it is to give

them up, the officials said. The estimate underscores the need for swift action by the incoming Clinton administration to en-sure that Ukraine follows through on past piedges to dismantle the nuclear weapons and return the components to Russia, the officials said.

An official said there had been "a gradual slide" by Ukraine toward becoming a new nuclear pow-er despite U.S. and allied pressure on it in comply with the strategic arms reduction treaty that would commit it to nonnuclear status.

Senior Ukrainian officials, including President Leonid M. Kravchuk, repeatedly have told Washington and other Western capitals that the country eventually would give up the estimated 1,656 former soviet nuclear arms still deployed on strategic missiles and bombers located on Ukrainian territory.

But the Ukrainian parliament last week postponed until next year a planned vote on whether to ratify the START accord signed by

Somali Port Taken As Truck Convoy **Reaches Interior**

Compiled by Our Staff From Dispatches KISMAYU, Somalia - U.S. and Belgian troops swept unopposed into the southern port city of Kismayu on Sunday, reopening a gateway for shipments of food and other aid.

Navy commandos were the first to land, coming ashore after dawn on a beach near the port. They scouted the area before landing with a joint force of about 300, including Belgian paratroopers who landed on the port's dock and Marines who came to the beach in amphibious armored vehicles. The landing was made as a con-

voy of relief trucks from Mogadishu, accompanied by Marines, arrived without incident in the interior town of Baidoa. It was the first truck convoy to reach the town, about 250 kilometers northwest of Mogadishu, in more than a month. An airlift to Baidoa from Kenya has been hugely expensive. The 20 trucks of the United Na-

tions World Food Program, carrying about 300 tons of grain, were escorted by 15 military vehicles and a rifle platoon of about 60 men, a U.S. military spokesman, Colonel Fred Peck, said. Baidoa, in a part of Somalia hardest hit by famine, was occupied by U.S. and French Foreign Legion troops last week. Like U.S. troops' initial landing

in Mogadishu on Dec. 9. the landing in Kismayu was anticipated and unopposed. A crowd of about 2,000 Somalis turned out to watch. By 9 A.M., the airport was de-

clared secure, and a U.S. govern-ment plane touched down less than an hour later, followed by two relief flights of the International Red Cross. Kismayu is considered a key to opening the southern portion of Somalia to relief efforts.

Colonel Peck said the landing, which was commanded by a Belgian officer, was intended to secure the port and airport against marauding gunmen, who have terror-ized the relief effort and pillaged supplies, Wholesale looting and fighting

between clan factions had virtually halted relief efforts recently in Kismayu. A U.S. officer, who spoke on condition of anonymity, estimated the number of armed clansmen in and around Kismayu at 1,600.

Famine Danger in Kenya

NAIROBI - Up to 180,000 people in northeast Kenya are in urgent need of food supplies because floods have cut roads there, Kenya radio reported Sunday.

усаг.

Also on Sunday, a UN source said military briefers said at a weekly meeting of UN and private charity officials that the town of Hoddur would be the next to be secured.

"They said they'd grab it in the next four or five days," the source said on condition of anonymity.

Hoddur is about 150 kilometers north of Baidoa. It has been overrun by bandits and militiamen fleeing the troops who took Baidoa. In Mogadishu on Sunday, a U.S. Marine patrol came under attack and returned fire, wounding a So-

mali, Colonel Peck said. He added that shots had been

fired at the foot patrol from the former parliament building and an approaching Somali jeep mounted with a machine gun. There were no casualties reported among the Americans.

Patrice Franceschi, the head of French Humanitarian Action, said gangs that had been active at Mog-adishu's port in the past have re-turned. He said gang members would board boats in the port, claim that the vaccination papers of the crew were not in order or that the ship's kitchen was not clean enough, and demand \$20,000

or \$30,000. He said there were four ships ---two French, one Red Cross and one of the World Food Program - in the port, with 19,000 tons of food. Somalia has been rent by civil war since January 1991, when Pres-ident Mohammed Siad Barre was

overthrown. A UN official, speaking on condition of anonymity, said an agree-ment reported late Friday between

the rival factions of Mohammed Ali Mahdi and General Mohammed Farrah Aidid to remove their forces from Mogadishu did not amount to much.

The agreement, reported by Mr. Ali Mahdi's radio station, said the militias would start leaving Mogadishu on Saturday for camps out-side the city. But the UN official said that most of their armed vehicles had already left.

The Red Cross said it was beginning to distribute food to rural areas around the capital. A spokesman, Horst Hamborg, said the harvest in some areas, which is to begin at the end of the month, appeared to be good, and aid work-ers were hopeful that feeding kitchens would not be necessary next (AP, Reuters, AFP)

Shaky U.S. Pension Insurance Program Could Need Bailout

By Jeff Gerth

New York Times Service WASHINGTON -- A growing chorus of economists and government officials is warning that the federal program that insures corporate pension plans is in deep financial trouble and might eventually require a costly bailout.

Coverage of private plans is just one part of the government's large pension problem. Because of past inattention, the pension plans for federal employees paid out of separate accounts -are now underfinanced by more than \$1 trillion. Some officials, including Presidentelect Bill Clinton, have compared the potential problem to the savings and loan disaster.

Two Democratie congressmen with jurisdiction over the issue, Representatives Dan Rostenkowski of Illinois and J.J. Pickle of Texas - have told Mr. Clinton they are concerned about the potential liability to the government.

that the Marines had opened fire at **PILOT:** Cuban Rescues Family

The 18-year-old Pension Benefit Guaranty Corp. assures that when employers who pay premiums to it go bankrupt, the government will meet the company's obligations to their retirees. The pensions of 40 million Americans are now insured by the corporation.

INTERNATIONAL HERALD TRIBUNE, MONDAY, DECEMBER 21, 1992

Most companies set aside enough money to cover the pension benefits they have promised their employees. But hundreds of others are neglecting to finance their pensions fully, and those liabilities bave grown 70 percent in the last two years alone, to \$51 billion at the end of 1991, from \$30 billion at the end of 1989. Many underfinanced plans come from the troubled auto, steel, tire and airline industries.

In negotiating new labor contracts with workers, some of these companies have offered to bolster pensions in lieu of raising salaries - promising, in effect, money they do not have now but hope to have sometime.

and sons out of Cuba. When Mr.

backed by money in retirement funds.

Among the companies on the list are LTV Corp., Uniroyal Goodrich Tire Co., Chrysler Corp., Bethelem Steel and General Motors.

While the federal pension corporation has enough cash to meet its obligations for the next several years, it shows a deficit of about \$3 billion if anticipated future losses are factored in. That shortfall is projected to grow to as much as \$30. billion as the baby boom generation be-gins to retire in 15 to 20 years.

This raises the likelihood that premiums, the main source of revenue, will have to be augmented, with taxpayer money making up the difference, corporation officials say.

The corporation's annual list of the 50 The government bas raised the premi-firms with the largest underfinanced pen-ums before, but that prompted many sion plans showed a 13-percent increase companies to drop out of the program to in 1991 in guaranteed benefits not avoid the increased costs. As it stands now, costs have climbed to about \$19 an employee for a company in the plan, from \$1 an employee 18 years ago. Rates are even higher for underfinanced plans.

> Some critics of the pension agency contend that the problem is overstated and that the numbers show no immediate cause for alarm. But others maintain that the situation will worsen considerably if not dealt with now.

To address the problem of its own pension commitments, the government has begun setting money aside, but making up the deficit will take larger and larger bites of the federal budget over the next few decades. Already, pension obli-gations for military and civil service retirees cost the federal government tens of billions of dollars a year.

Support for Taxing Benefits In a dramatic policy shift, a trade group representing many major employ-ers is backing a plan that would require workers to pay income taxes on health care benefits that exceed the cost of basic coverage, the Los Angeles Times reportd from Washington.

A spokesman for the Association of Private Pension and Welfare Plans said that the group believed that the taxation of benefits would encourage employers and workers to seek less expensive ways to get care.

President-elect Bill Clinton has backed the tax proposal. He said in a Wall Street Journal interview last week; "There has to be some personal responsibility in this health care system we set up. You don't want to punish necessary access. I don't mean that. But once you guarantee a threshold of access there ought to be some limit to utilization."

ONDON - Global bonds, one of the success stories of 1992, look set to account for an even bigger share of international debt issues market next year, bankers say. "I think it's been proved that global issues do work," said Dan Cook, head of new issues at UBS/Phillips & Drew. "The concept is pretty well accepted, and global bonds will be used by more borrowers next year."

Global bonds are sold in Europe, Asia and the United States simultaneously. In theory, they provide greater liquidity than either Eurobonds or domestic bonds because they trade worldwide on a 24-hour basis, though in practice

some issues disappear into one or other of the three regions. The concept is passed several new milestones this year, including the first global issues denominated in year and Australian darger The market for global bonds yen and Australian dollars, as

well as the first issues by sovereign and corporate borrowers.

The World Bank remains the most active user of global bonds, with three issues sold, totaling \$5 billion. That included the debut global yen bond, a 250 billion yen (\$2 billion) issue of 5.25 percent, 10-year bonds.

Five global bonds totalling \$1.04 billion were sold denominated in Australian dollars, known as Matilda bonds, with the European Bank for Reconstruction and Development and the European Investment Bank among the borrowers.

Only Canadian borrowers, Only Canadian borrowers opted to sell Canadian dollar global bonds, with Hydro Quebec, Ontario Hydro and the Province of Ontario between them selling four issues totaling \$5.3 billion. "A number of banks are saying the likely volume of global bonds next year could be in the high teens or above, but I'm a bit here the and the selling four issues bit of the bar.

skeptical," said Andrew Pelling, new issues chief at Nomura Securi-tics. "There are balanced arguments for and against, and we will see more globals but there won't be a huge acceleration."

There will be occasions when a borrower simply cannot get the kind of funds it wants in the Eurobond market, Mr. Pelling said, and then it might opt for a global issue. That is what Matsushita Electric did when it wanted 10-year funding but would not have been able to tempt investors into a Eurobond without having to pay up for its money. That prompted the Japanese electrical giant to become the first, and so far only, corporation to sell global bonds, with its \$1 billion issue of I0-year bonds sold in July. A significant chunk of that issue, however, disappeared into U.S. portfolios, which, bankers said, highlighted one of the difficulties still faced by the global bond market. the global bond market.

There's a danger that European clients will take the view that global bonds become illiquid rather quickly as another financial center starts to dominate," Mr. Pelling said.

Borrowers intending to sell global bonds have to register with the Securities and Exchange Commission in the United States. While some borrowers find that a hindrance, it does mean all the docu-mentation for an issue is already in place and the borrower can pick

Loss-Ravaged Isuzu to Get Out of Cars

By Andrew Pollack New York Times Service TOKYO - In a development that only

a few years ago might have seemed unimaginable, one of Japan's carmakers said over the weekend that it would give up production of passenger cars.

The announcement Saturday by Isuzu Motors Ltd., which once achieved popu-larity in the United States with commercials featuring a lying salesman, reflects the hard times that have befallen Japan's automobile industry.

The move is also part of a new discipline being imposed on companies in many in-dustries as a result of Japan's severe economie slump. With money tight and prof-its slim, companies that once tried to match competitors in all areas are having to jettison unprofitable products.

"Clearly, we want to focus the organization on our core products," said Donald T.

Sullivan, an executive vice president of Isuzu, which is suffering heavy losses. He was sent to help Isuzu by General Motors Corp., which owns 37.4 percent of the Japanese company.

For Isuzu, the changes mean focusing on trucks, recreational vehicles and diesel

Mercedes Said to Face a Rare Loss

Reviters

BONN - Mercedes-Benz AG, the German maker of luxury-cars whose sales are dwindling, will post it first operating loss in 10 years in 1992, the weekly magazine Der Spiegel will report on Monday. Der Spiegel, in a report made available ahead of publication, said that under an internal accounting method. Mercedes

would show an operating loss of 1.1 billion

Isuzu Stylus and Impulse and also by General Motors as the Geo Storm. Sales and production have been dropping for Isuzu's decision, which had long been several years, and this year the company is

lsuzu makes only one model of car, a

compact called the Gemini in Japan, Vari-

ations are sold in the United States as the

car manufacturers to eight.

Mercedes refused to comment on the report, saying it never publishes the internal figure. "The situation is serious and it will not

improve in 1993," Der Spiegel quoted an unnamed company executive as saying.

rumored, reduces the number of Japanese estimated to have produced only 90,000 cars, most of which went to GM.

"You can't be in the car business with one platform and one product," Mr. Sullivan said. Despite the economic wisdom of quitting car production, he said "it was a very difficult decision."

Isuzu said it would continue to sell some cars in Japan. But it plans to buy a compact car known as the Domani from Honda Motor Co, and resell it under the Isuzu name.

American dealers will not be supplied with cars by Isuzu and will concentrate on selling sport-utility vehicles like the Rodeo and Trooper. General Motors told Reuters it would find a replacement for the Geo Storm from another supplier for the 1996 model year but that it would not offer a Storm model in 1994 and 1995.

3.3% Target Seen As Too Optimistic

Compiled by Our Staff From Dispatches TOKYO — Japan's cabinet on Sunday approved a 3.3 percent growth target for the coming fiscal year, but economists and even members of the ruling party were quick to cast doubt on the forecast, "It sounds like you are talking about some other country, not out own," said Hiroshi Mitsuzuka, head of the Liberal Democratic Party's policy affairs research council.

The cabinet endorsed the Eco-nomic Planning Agency's projec-tion for gross national product in the year beginning April 1, 1993. but even some cabinet ministers were cautious about the projection. The EPA minister, Hajime Funada, said the forecast "would not

be impossible at all to achieve. Another EPA official said the 3.3 percent growth forecast was higher than the 2.7 to 2.8 percent seen by most private economists because the government figure "has an aspect of a target for us to achieve," At its meeting, the cabinet also

approved a sharp downward revi-sion in its growth forecast for the current fiscal year, to 1,6 percent from 3.5 percent.

Private economists have warned the lower targets will not be attained without vigorous stimulative steps, including tax cuts.

Under the proposal, the commission could impose anti-dumping measures without the two-thirds majority backing it currently needs from ministers, Instead, it would need a two-thirds majority of ministers to block any protective act, Indirectly linked to the issue is a request by the European Court of Justice to shift some of its case-load onto its lower, sister Court of First Instance, to cut processing time, The lower court deals mainly with

mittee on Trade and Industry. Meanwhile, EC foreign ministers will argue Monday over a plan by the EC Commission to grant itself sweeping powers to retaliate

and Italy were adamant it be adopt-ed. France, Belgium, Portugal, Greece and Ireland are ranged b.-

"We have had rather severe re-cession for quite some time," said Jesper Koll, senior economist at S.G. Warburg Securines (Japan). Yoseki Nagase, director-general of the EPA's coordination bureau, attributed the downward revision for the current year to "the impact that asset deflation" and protract-

ed slump in capital investment. The agency defended its outlook for 1993-94 by citing the expected impact of the government's 10.7 trillion yen (\$87 billion) economie package, announced in August. Naoki Hoshi, deputy director of the agency's fiscal and monetary division, also said analysts have underestimated the recovery in capital investment during the last five

Kuwait to Give Support Britons Bemoan EC Red Tape To Torras Companies **Company Directors Warn of Obstacles to Single Market**

KUWAIT -- Spain has secured a commitment from Kuwait to ensure the emirate's divestment from Spain does not cause the collapse of companies there, a senior Spanish official said Sunday. Pedro Perez, secretary of state for the economy, held talks with top

Kuwaiti officials about Grupo Torras SA, Kuwait's Spanish holding company, which went into receivership two weeks ago citing losses of more than \$4 billion.

Mr. Perez told reporters Kuwait had agreed to secure loans made to mpanies in which Torras held shares, and to set up a committee to coordinate activities of the various firms.

This will cast a clear message that the Kuwait Investment Authority is behind the group," Mr. Perez said. Kuwait's official news agency, KUNA, said the two sides had signed an

speciment aimed at supporting Torras companies. The news agency also reported that Kuwait had decided to sue former

managers of Torras, including the former deputy chairman, Javier de la Rosa

New York Notebook

Clinton Is Economical With the Economists

John Maynard Keynes, the century's most influential economist, once said that in his utopia members of his profession would be like dentists — useful but humble people. Utopia may be arriving with the administration of President-elect Bill Clinton. Its economic team is composed primarily of lawyers, bankers and politicians, with only two economists — Alice M. Rivin as budget director and Laura D'Andrea Tyson as chief economic adviser — whose appointments probably say more about feminism than about the hubris of economists.

"Who needs economists?" asked David Wyss, chief economist of DRI/McGraw Hull. If this really is a trend, it hardly upsets Allen Sinzi, a business economist who gave one of the leadoff presenta-tions at Mr. Clinton's economic teach-in last week, a forum that brought together 300 business executives, labor leaders and repre-

ness within the European Community, U.K. business leaders said in a survey for release on Monday. cross-border payment systems. The Institute of Directors has The poll by the Institute of Dihanded its survey to Parliament's rectors said the success of the European single market, which comes **Sluggish Growth** into force in the New Year, would depend on an effective EC compe-

sentatives of everything from child-care agencies to Indian tribes. "The most striking thing to me about the meeting had nothing to do with economics," Mr. Smai said later. "It was about the symbolic opening up of Washington to the American people. Our problems now are outside the realm of economie management. They have to do with Washington's isolation from rest of the country, which is one

Take Your Deficit Medicine

reason we now are in the soup."

To stimulate or not to stimulate. That is the question vexing President-elect Bill Clinton, who says he will decide at the last possible moment, after he sees the latest statistics. Don't believe him, says David C. Munro of High Frequency Economics, who served as a White House staff economist under every president from Richard Nixon to Ronald Reagan. Mr. Murro said the incoming president "knows that statistical castles crumble."

Mr. Munro predicts that Mr. Clinton will stress political balance, proposing a package worth \$25 billion. That will be just enough to offset the budget squeeze left behind by President George Bush, who shifted 1993 highway spending and personal income-tax rebates forward to the election year of 1992.

Wall Street will be told - "truthfully" - that Mr. Chinton's Wall Street will be told — "futurinity — that Mr. Chindris program will not add to the deficit in either the long or short run, Mr. Munro said, and Congress will be warned that it must pass enforce-able, dracoman deficit cuts "with visions of vengeance on Wall Street and from the Fed" if it does not. His forecast: "The bill will move extraordinarily quickly from unveiling late in January to law by March. Good economic medicine tastes awful. That is why investors will be surprised at how quickly it will be downed."

Broke, but Finally Buying

Back in July, Edward Johnson, whose weekly Johnson Redbook Service reports retail sales at 25 national chain stores, discounters and department stores, stuck his neck out and forecast that the Christmas season would be at least 6 percent better this year about twice the sales increase during the two previous, dismal holiday seasons. He figured it this way: "The Joneses next donr are as broke or broker than you are, but this is still not a dress-down era. The consumer still wants quality and fashion, but at bargain prices." Hooray for Mr. Johnson! His cheerful forecast is coming in on

after the last-minute shopping rush. How did he know? The consumer has been groping all year, looking for something new because he was fed up with what he had," he said. The stores themselves had the same idea: Macy's, one of the country's biggest department store chains, adopted "affordable fashion" as its holiday

season marketing theme. Early in the year, Mr. Johnson's reports foreshadowed sharp improvements that the government's retail figures caught up with only a month or so later. "They don't have as large a staff as they used to," he says of the Commerce Department. His service now is a hot forecasting tool for bond traders always listening for the latest uptick in the economy.

Dial LEND to Ease Credit Crunch

Ending the credit crunch may be a priority for politicians but not for Robert Shapiro, who has found a niche as an alternative lender since walking away from the New York real estate bust two years ago and founding Dunewood Funding Corp. The West Palm Beach, Florida, firm sells first mortgages on houses, apartment buildings and commercial property paying anywhere from 13 percent to an astounding 18 percent a year. Chents are mostly small businesses shut out by the banks and forced to mortgage their property to raise capital.

Branching out last week, the firm sold the rights to a winning ticket on the New York State lottery paying \$362,570 over five years. The winner wanted his money now and offered to sell his rights through Danewood for \$256,873 — the equivalent of a 12 percent return for what is in effect a state-guaranteed five-year annuity. There was some bargaining, and Mr. Shapiro won't disclose the size of the final price, but everybody seemed to go away happy because he said, "I'm negotiating for another winner worth five million. Call me later." His number, appropriately, is 1-800-835-LEND.

NEW YORK - Upcoming redemptions of corporate and municipal bonds are providing support for the government securities marwhich despite some worrying signs is benefiting from the perception it will be the only game in town for fixed-income investors.

On Jan. 4, \$12 billion to \$15 billion of bonds are expected to be called early, in response to the decline in interest rates since early July. Municipalities and other bond iers are taking advantage of early refunding clauses to call in highinterest bonds and replace them with bonds offering lower rates. "With just a few days to go be-

fore a major financial hurricane batters the municipal bond market, we are seeing war rooms planned," said Bernard Schitzer, head bond trader at J.B. Hanauer & Co. of Parsippany, New Jersey. "With that much cash being refunded, in-vestors who do not take precautions are apt to find themselves with lots of cash and nothing attractive to re-invest in," be said. Short- and medium-term govern

ent bonds derived the most bene In from the expected shift of funds in thin trading last week. The 10year Treasury note rose 14/32, to 97 15/32, where its yield was 6.73

BUSINESS BRIEFS

Silicon Valley Challenges Nintendo

SAN FRANCISCO (NYT) — A Silicon Valley company plans to introduce a high-end video game system backed by both Japanese consumer electronics companies and Hollywood. The fledging company, 3DO, of San Mateo, California, was started by Trip Hawkins, founder of Electronic Arts, a computer software game company. It will introduced its new system Jan. 7 at the Consumer Electronics Show in Las Vegas.

and has financial backing from Matsushita Electric Industrial Co. and Time Warner Inc., an industry executive familiar with 3DO's plans said. 3DO will not manufacture the game machines but will liceuse the design to other companies. Matsushita will be the first company to make the new systems, which are expected to be priced as high as \$800, according to the executive.

BCCI Figure Advances Fine Payment

WASHINGTON (WP) — Sheikh Kamal Adham, a central figure in the BCCI case, has agreed to pay \$10 million to the Federal Reserve Board two months earlier than planned so the money can be used if necessary to support First American Bankshares Inc., which is for sale. Shikh Kamal, former head of Saudi intelligence, agreed in July to pay \$105 million to settle charges that be knew First American was illegally controlled by a group of Arab investors. He has agreed to pay \$10 million of that amount immediately, at the Fed's request, according to docu-ments filed in U.S. District Court Friday.

For the Record

China's first oil-futures market is expected to open in March 1993, and trade in imported oil will be allowed, the state-owned Business Weekly (Bloomberg) newspaper reported Sunday.

The European Community agreed Sunday to overhanl its fisheries program and reduce catch quotas next year to counter overfishing and depiction of vital stocks, officials said in Brussels. (AP)

GLOBAL: Growing Success Story

"Once you've registered, you move as quickly as you can with a Eurobond," said Mr. Cook at UBS. Sweden, for example, filed with the SEC on Nov. 9 to sell up to \$3.8

billion of debt. That registration is still in place, so the country could raise cash at the drop of a hat if the market looked receptive to an issue.

I cooking ahead, next year should see the World Bank selling the first Deutsche mark-denominated glob-al bond, while more corporations at bond, while more corporations

and sovereigns are expected to opt for this funding route. On Nov. 17, Finland announced the first sovereign global bond, sell-ing \$2 billion of 6.75 percent five-ues body metamittee by Meerill year bonds underwritten by Mernill Lynch & Co., J.P. Morgan & Co. and Nomura Securities Co., That

ISUZU: Gets Out of Cars

(Continued from first finance page) In return for getting cars from Honda, Isuzu has tentatively agreed to supply Honda with its Rodeo, which is made at a factory in Lafayette, Indiana, owned partly by Isuzu, Honda will resell the Rodeo under its own name in the United States starting in January, 1994 and will also consider importing the cars to Japan. "By exchanging products, both sides will benefit," said Yoshihide Munekuni, executive vice president of Honda.

Such ties between manufacturers are also becoming commonplace. "You have to try to cover as much

ground with as few resources as possible," said Peter Boardman, an auto-industry analyst with UBS

creased its key short-term interest Phillips & Drew in Tokyo. After years of rapid growth and rate to 9.5 percent. BEIJING - China's leaders have warned the economy must not be allowed to spin out of control, signaling that Beijing may try to dampen a boom that has thrust both growth and inflation into double digits. China "must prevent the economy from overheating," the Communist

Party general secretary. Jiang Zemin, told a national meeting on econom-ic planning. "The growth rate must be in harmony with the economic structure and the capacity of our economy." The meeting, which ended Friday, was reported on the front pages of more meeting. Sunday, a sime that the Communist Party was

most major newspapers Sunday, a sign that the Communist Party wants-its conclusions studied and obeyed by all.

China's gross national product is expected to grow 12 percent this year, the fastest rate since 1988. Then, an overheated economy triggered inflation of 30 percent and a wave of panic buying, which helped set the stage for prodemocracy demonstrations that were crushed by the army in June 1989, Prime Minister Li Peng warned the meeting that China "must consider how much the economy are been."

how much the economy can bear." The state-run China Daily quoted B senior economic official as predicting growth would remain in double digits next year BI about 10 (Reuters, AFP, UPI) percent

IMF Cautions Philippines

The International Monetary Fund fears the Philippines 1993-1998 economic development plan may lead to higher inflation and a balance of payments crisis, Reuters reported from Manila. An IMF technical mission studied the plan last week as part of discussions on a three-year stabilization program. "The case for a strategy of generating higher growth through larger deficits and expansionary monetary policy without the danger of reigniting inflation and halance of payments pressures has not been established." the IMF mission said.

Prices drifted higher in a market dominated by technical factors as trading stagnated ahead of the The DAX index closed at 1,492,04 points on Friday, up 16.03 points or 11 present for the second down. year-end holidays. But the index dropped 86.50 points or 1.1 percent, from the

previous Friday. Despite the small gain, WestLB warned the outlonk for stocks had deteriorated. With the DAX having broken below the 1,500-point resistance level the previous week, the bank said the index could go down to around 1.430 before year-end, which would be a low for the year. The pessimistic mood stemmed from downward revisions in

Tomba's Latest Troubles: Girardelli and a Stone

tine in to **Italian Ends 7th in Giant** is front Parts After Slalom Loss to Fogdoe

KRANJSKA GORA, Slovenia — Marc Girardelli, pressing his claim for a fifth World Cup overall hile, won a second successive vic-

E BUN CON hile, won a second successive vic-tory in the giant sialom on Sunday as bed luck pursued Alberto Tomba. The Austrian-born Girardelli, who skis for Lucenbourg, clocked a com-bined time of 1 minute 57.48 seconds

bined time of I minute 57.48 seconds over the icy Podkoren course. Lasse Kjus of Norway was second, his best finish in a giant slalom since in 1990, in 1:57.64, and Fredrik Nyberg of Sweden was third in 1:58.04,

t upager The victory in Slovenia, Girar-delli's second in two weeks after winning last Sunday in Alta Badia, Italy, left him five points behind

the overall leader, Tomba, The Italian Olympic champion, seeking his first victory of the sea-son, finished seventh.

On Saturday, Tomas Fogdoe of Sweden had scored his second World Cup slalom victory of the season, spoiling Tomha's 26th birthday party.

And on Sunday, there was a new chapter in Tomba's recent hard luck story. The Italian said he had hit a

stone eight gates from the finish of a first leg course set by his own coach, Gustavo Thoeni. "The edge of my ski was mined

and I was sure I was going out. It's a miracle I was able to recover." he said after setting the second fastest time of the second leg. He was 13th fastest in the first leg.

Tomba has finished second three times this season hut has been dogged by bad luck, including being distracted by a television cameraman on skis during one race.

His complaint about the stone seemed to he backed up by the World Cup overall champion, Paul World Cup overall champion, Paul Accola of Switzerland, who also almost fell at the same point on the first leg and finished 18th.

Girardelli should recover the win after hearing of Tomba's secoverall lead on Tuesday in a super-giant slalom in Bad Kleinkirch-heim, Austria, Tomba, who does was sure Tomba would win. There not race downhills or super-G, will was a lot of pressure on me."

not be competing. Girardelli was critical of the rut-ted and uneven course on which he won the 38th World Cup victory of leg before skiing out, and to Swithis career. The race was almost zerland's Accola, who failed to fin-called off earlier in the week due to ish the first leg.

"The conditions here were really tough," he said. "I'm very pleased to be leaving and going back to a country where the food is good and the pistes better prepared."

A complete all-rounder, and now leader of the giant slalom stand-ings, Girardelli said last week he was feeling worn out by a grueling schedule and expected to have to wait until the New Year before overtaking Tomba.

And after Sunday's race, he said victory had taken him slightly by surprise. "I was just looking for the top three," he said. After Tomba's mistake in the

and .16 of a second quicker than Girardelli — brought the Italian back into the running briefly. "Slalom races consist of two runs

and I am unable to put two good runs together this season," Tomba said. "Don't ask my why. I am in good form. I must wait next month for a victory."

On Saturday, Tomba turned in his third performance as runner-up, finishing 28 of a second behind Fogdoe despite an attacking second run.

The Swede clocked a total time for two runs of 1:43.20, with Tomba at 1:43.48, Germany's Peter Roth, third after the first leg. stayed in that position on 1:43.91. It was Fogdoe's third World Cop

victory and the 22-year-old from Gallivara was delighted to have emulated his great compatriot, In-gemar Stenmark, in winning here.

wanted. Fogdoe, who followed Tomba down, said he had been surprised to

Marc Girardelli on his way to victory Sunday in the giant slalom at Kraniska Gora, his second triumph in two weeks in the event.

Seizinger Edges Russian in Women's Super-G

Compiled by Our Staff From Dispatches

LAKE LOUISE, Alberta - Katja Seizinger of Germany earned her second World Cup medal in as many days on Sunday, beating Tatiana Lebedeva of Russia by eight hun-dredths of a second to win a super-giant slalom. Seizinger, who finished second in Saturday's downhill to Switzerland's Chantal Bournissen,

finished the 1.800-meter men's Olympic downhill course in one minute, 10.93 seconds. Her teammate, Regina Haeusi, was third in 1;11.20. Kerrin Lee-Gartner of Canada shook off a disappointing downhill result Saturday to fin-

ish fifth in the super-G in 1:11.38. The bone-chilling temperatures that had haunted the Rocky Mountain resort all week rose to a reasonable 17.5 degrees Fahrenheit

(minus 8 centigrade), but overcast skies and light falling snow made visibility difficult. In the second women's downhill of the sea-son, Bournissen, the 1991 World Cup downhill champion, flashed through bitter cold and swirling snow to beat a trio of Germans.

"Everything wasn't perfect," Bournissen said of her fifth World Cup downhill victory. "I

didn't ski perfect from the top. On the top I wasn't so fast. I didn't ski clean."

Bournissen won with as time of 1 minute, 35.88 seconds. Seizinger, the defending down-hill champion, was second in 1:35.93. Her German teammate Michaela Gerg was third in 1:36.58.

Another German, Katharina Gutensohn, was fourth in 1:36.63. Kate Pace of Canada, who led two of the training runs, finished fifth m 1:36.78.

Lake Louise has been good to Bournissen, She was fourth in a pair of races in 1989 and had a second in a late-season race in 1991 that

helped her win the World Cup title. Seizinger, who injured her right knee on Nov. 6 during training, and Gutensohn moved inin a tie for the lead in the downhill standings with

130 points each. Bournissen has 118. Sweden's Pernilla Wiberg, who scored a point in the first downhill of her career last weekend in Vail, Colorado, made a dramatic ump up the standings by placing 15th on

Petra Kronberger of Austria, the three-time

defending overall champion, continued to struggle, placing only 37th on Saturday, four seconds shy of Bournissen. Kronberger ranks 11th overall with 132 points.

Despite difficult conditions, the course was fast and icy, taking its toll on Norway's Merete Fjeldavli, who crashed three gates from the

She was removed from the mountain by sled with a suspected broken leg and facial lacerations and taken to a hospital.

Bournissen said in training that she deliberately slowed at the end of her runs, but claimed she was not trying to hide her actual speed from her rivals.

"When I stood up at the end of my training runs it was only for me," said Bournissen, "So I knew I had reserve. I don't want to bluff anyone,'

Seizinger said: "I don't think anybody took the same line in the race as they did in the training runs. It was really a lot faster and it was difficult to stand on the ski." (AP, Reuters)

Faldo Rallies Past Norman in Jamaica Playoff

Compiled by Our Staff From Dispatches MONTEGO BAY, Jamaica -Nick Faldo withstood a barrage of birdies by Greg Norman on Sun-American Tom Kite, who shot 70. day to win the Johnnie Walker World Championship in a sudden-death playoff after he birdied the final hole to tie the Australian. Faldo, who sank a 15-foot (4.5meter) birdie putt on the 18th in

meter) birdie putt on the 18th in force the pleyoff, only needed to par it in the pleyoff to collect the \$550,000 first prize. Norman, who has experienced many last-minute heartbreaks in his carcer, bogeyed the extra hole when he hit his approach shot into deep rough behind the green and could not get up and down. The Australian could have won the tournarrent but he missed a

the tournament but he missed a four-foot birdie putt on the final hole — after Faldo had made his. Trailing by five strokes of the start of the day. Norman relentless-

ly pursued the front-running Faldo until he finally overtook him with a birdie at the 14th hole, where Faldo made his only mistake of the day.

The Briton bogeyed the 545-yard hole when he drove his ball inin pain trees on the right and had to take an unplayable he. Norman, who won \$300,000 for

second place, shot a 63 on a difficult golf course to post a 72-hole total of 274, six under par for the championship. Faldo, No. 1 in the world rank-

ings, closed with a 68 for his 274, Norman birdied three of the first four holes to put pressure on Faldo. "I think if you start making bird-ies early and get in three-under at the turn, you are going to have the opportunity to make a challenge," Norman had said after the third round.

Norman began to cut into Faldo's lead with consecutive birdies on the par-three third and par-five urth.

Then, after they matched birdies on the seventh hole, Norman fal-filled his prediction, making the turn at three under par — and three behind Faldo. He birdied the 11th, 13th and 14th holes to pass Faldo, who made his only bogey of the day at 14.

Devis Love shot an impressive 66 but it was only good for 283 and Paul Azinger, another American, and Tony Johnstone of Zimbabwe shot 67s as the oceanside course played easier, with less wind than in the previous three days, when subpar rounds were rare.

Ian Woosnam, who made three consecutive birdies early on, shot 68 to finish alone at 284.

Mark Roc of Britain, who started the day with an eagle on the 470yard first hole, was next at 285 after he matched par 70.

Fred Couples, the defending champion, was unable in fully recover from an opening 77, shooting 73 and finishing at 287.

Faldo had also turned back a strong challenge from Norman on Saturday when he birdied four of five holes midway through the round and built a five-stroke lead. Unlike some of the players who

seemed in have already started their Christmas holiday, Norman and Faldo displayed the intensity and determination that have helped them win major utles.

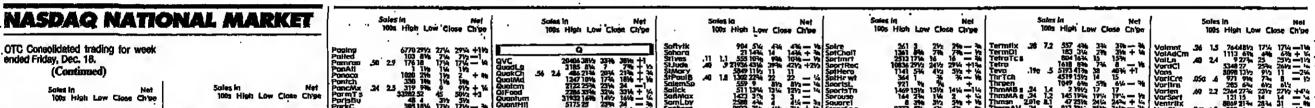

On Saturday, Faido shot a nearly flawless 65, the single-round record in this two-year-old event, for a three-round total of four-under 206 The key to Faldo's record round

was that his play with the putter finally equalled his excellence from tee to green. The 35-year-old En-glishman holed four birdie putts longer than 20 feet on the first 10 holes, before adding two others of 18 and 12 feet to close out the round. The only blemish on his card came when he three-putted from 30

feet for a bogey on the 545-yard 14th hole, where a five-footer lipped out. The mistake caused Faldo to turn from the gallery and deliver some well-chosen epithets in the direction of the crashing surf.

It was similar strokes during a second-round 70 on Friday, in which he missed 10 putts under 18 feet, that drove a frustrated Faldo immediately to the practice green to refine his method.

INTERNATIONAL HERALD TRIBUNE, MONDAY, DECEMBER 21, 1992

M 0 DA N **ŠPÖŘTS BASEBALL**

Fine Times They Are a-Changin', but Not America's Pastime

By William C. Rhoden New York Times Service

NEW YORK - I don't love baseball, but I hate to see the life oozing out of the game. Will baseball complete an excruciating, but necessary, metamorphosis before it is too late?

1.4 Baseball is like a longtime neighbor whose primary > value is providing a comforting sense of stability. While football narrowed its goalposts and basketball widened its lane, baseball has more or less stood pat.

Now this stubborn refusal to change, **Vantage** • which once was

Point part of baseball's charm, has be-* come the thing that's killing it, or at least killing the

national appetite for it.

As a business, the game is healthy, Either healthy or delusional enough for 267 players to have made at least [\$1 million last season, 177 to have made \$2 million or more and 71 players to have made at least \$3 million. The death to which I refer is the necessary passing of "The Boy Next Door." Io the deep, popular mythol ogy of baseball, the boy pext door has been the sandy-

haired kid who leaves the farm for the minor leagues. Or he was the son of European immigrants who played stickball in the street and wound up with the Yankees. He is a character who evolved during a time when

basebail players worked "regular jobs" in the off season.

game back into shape. Earlier this week, about 150 people gathered in New York for a panel discussion about baseball: America's Pastime or Past Time?

There were debates about lockouts and antitrust exemptions and the efficacy of million-dollar salaries. But when it came to discussing baseball's future, there was a consensus; The greatest challenge facing baseball is in rebuilding its deteriorating fan base. "The demography is changing, the population is changing," said Richard Ravitch, who is the chief

different directions, uncertain of how to whip the game back into shape. discuss the shippage in newspaper readers. One fore-cast predicted that between now and the year 2000, 87 percent of the country's population growth is expected

to occur in minority comm unities. This is the world in which baseball finds itself. And baseball has the additional burden of changing the perception that owners, at a deep and fundamental level, have disdain for this so-called new population of

prospective fans. Not every owner will agree that a new pool of fans needs to be cultivated. There seem to be two basic approaches to the challenge of recovering lost fans.

The Yankees could reflect one. The team recently added five players - all white - to its roster: Jim Abbott, Spike Owens, Jimmy Key, Wade Boggs and Paul O'Neill. Four of the seven players who departed the team are black.

One could argue that this is simply a color-blind move to obtain the best players possible.

But considering that a recent survey showed that the Yankees have no members of minority groups in top management jobs, one can also reasonably ask whether the moves reflect the team's sense that, in the absence of winning, white fans prefer to see a team in which the predominant number of players are white.

On the other hand. San Francisco hired Dusty Baker as its new manager, and Denver hired Don Baylor. Is this a simple matter of hiring the best possible candidate? Or does it reflect a belief that attracting a new pool of fans requires a more substantial commitment than playing soul music and salsa between imnings?

in any event, the men and women in charge of marketing baseball are beginning to realize that the sandy-haired boy next door, once the foundation of the nostalgia and mythology of the game, has moved away.

Now a new family has moved in. A family with new values and a different way of living and looking at life.

The neighborhood is changing.

Athletics Are Offering A Treasure for Sierra Of the 30 players who on Dec. 7

The Associated Press

NEW YORK --- Ruben Sierra's were offered arbitration, 17 have agent says the outfielder plans to re-sign with the Oakland Athletics, signed and two have accepted. Those rejecting were Milwaukee outfielder Robin Youni, Minneso. a deal that is expected to be worth ta outfielder Randy Bush, Seanle about \$30 million over five years. pitcher Mark Grant. Chicago Cubs "I expect everything to be finalized within the next two or three Smith, Houston pitcher Rob Murdays," the agent, Bob Woolf, said

on saturday. Sierra, 27, was traded from the Texas Rangers to Oakland on Aug. 31 along with pitchers Jeff Russell and Bobby Witt for an analysis of the saturday. and Bobby Witt for outfielder Jose Canseco. Sierra hit .278 last season teams until May I. with 17 homers and 87 RBIs. He made \$5 million.

Sierra and Mark McGwire were among 11 free agents who rejected arbitration offers from their former teams Saturday. Seattle outfielder Henry Cotto was the only one to accept, and former Toronto shortstop Manuel Lee and Texas agreed to a \$3.4 million, two-year contract that could make the deal worth \$5.1 a year in performance bonuses.

teams until May I. Yount reached a tentative agree. ment with the Brewers on Dec. 3, a deal thought to be worth about \$35 million, but it hasn't been finalized. Lee, who made \$1 million lag season with the Bloe Jays, gets a 5600,000 signing bonus, \$1.6 million in 1993 and \$1 million in 1994. The Rangers have a \$1.9 million option for 1995 with a \$200,000 buyout. He also can make \$100,000

pitchers Jeff Robinson and Dave

million over three years.

Eric Montross, a 7-foot (2.14meter) player who guided his high school team to the 1989 state championship in Indiana, added 13 points as North Carolina, 6-0, neardoubled Butler's point total The other leading Tar Heel scor-

COLLEGE BASKETBALL

ers were Matt Wenstrom with 14 points, Donald Williams with 12 and Henrik Rodl and Brian Reese with 10 each. Brian Beauford scored 14 points for the Bulldogs, 1-4.

North Carolina Coach Dean Smith posted his 746th victory, tying him for fourth on the all-time NCAA list with his college coach, Phog Allen of Kansas

Seton Hall 81, Fairleigh Dickin-son 61: In East Rutherford, New Jersey, John Leahy hit two 3-point-ers to spark a 19-4 first-half run and No. 7 Seton Hall used a zone defense to shut down Fairleigh Dickinson.

The victory was the fifth straight for the Pirates, 8-1. The loss was the third in a row for the Knights, 1-4. Fairleigh Dickinson hit seven of its first 12 shots and got within 29-27. But the Pirates switched to a 1-3-1 zone, and the Knights sank only three of their last 11 shots in the

Jerry Walker banked in a shot to start the big Seton Hall run. Leahy followed with his two bombs to put the Pirates ahead, 37-27. By halftime, the lead was 48-31, with Seton Hall hitting 20 of 33 shots. In Saturday games:

Kaasas 86, East Tennessee State 83: In Lawrence, Kansas, East Tennessee State used a barrage of 3-point baskets to erase a huge Kansas lead, but the No. 2 Jay-hawks rallied in the final minutes to extricate themselves and remain mbcaten at 6-0.

The Buccaneers trailed by 28-3 in the early going, and Kansas led 50-31 at halftime. But bitting 8 of 11 from 3-point range in the second half, the Buccancers pulled ahead, 78-75, with 4:45 to play on a 3-pointer hy Jason Niblett.

But after that, East Tennessee managed only one more basket and made only 3 of 6 free throws. Eric Panley led the Jayhawks with 21 points. Niblett led East

Tennessee, 2-2, with 22 points. Kentucky 198, Morehead State

33-30 advantage at 4:47. Kentucky's fullcourt defense forced four consecutive turnovers and the Wildcats took a 40-30 lead. Kentucky was never threatened thereafter. Indiana 79, Cincinnati 64: In

Bloomington, Indiana, Calbert Cheaney scored 17 points and the No. 4 Hoosiers withstood a late charge by Cincinnati to defeat the 19th-ranked Bearcats. After the Hoosiers expanded

their lead to 48-23 on Greg Graham's 3-pointer with 14:41 remaining in the game, Nick Van Exel scored 9 points to help cut Indiana's advantage to 14. But a bitle later Allan Henderson sank two free throws and the Hoosiers coasted home.

Michigan 94, Iowa State 72; In Auhurn Hills, Michigan, Chris Webber scored 21 points and the No. 6 Wolverines outhustled a wea-

ry Iowa State squad. The Cyclones, who beat Mercer at home on Friday, were playing their second game in 24 hours and the weariness showed in the early going. The Wolverines, 5-1, out-raced the Cyclones, 5-3, down the floor several times for easy baskets. Florida St. 63, North Carolina-

Charlotte 59: In Orlando, Florida, Bob Sura scored 12 second-half points and Doug Edwards hit a turnaround jumper with 37 seconds to go to help No. 10 Florida State hold off North Carolina-Charlotte. Edwards finished with 22 points and Sura had 18 for the Seminoles,

Georgetown 103, Morgan State 85: In Landover, Maryland, Oth-ella Harrington and Duane Spencer each scored 22 points and the No. 11 Hoyas beat foul-plagued Morgan State. Morgan State, 0-6, finished the

ame with only four men on the floor after five players fouled out. Georgetown, 5-0, made 42 of 60 free throws.

Arkansas 73, Missouri 68: In Co-lumbia, Missouri, freshman forward Scotty Thurman scored 34 points to lead the No. 12 Razor-backs past Missouri and deny Norm Stewart his 500th victory as

the Tigers' coach. Thurman, who had been averag-ing 14.3 for the Razorbacks, 5-0, ht seven 3-pointers and got a key turn-around jumper that put Arkansas on top, 69-65, with 56 seconds left. UCLA 68, Georgia 63: In Atlan-

ta, Ed O'Bannon scored 24 points and UCLA's zone defense held Georgia to one basket in the final mine minutes as the No. 13 Bruins rallied to beat the Bulldogs in the

penheimer opener.

Tanopa Bay's Reggie Cobb celebrated after his 1-yard run tied the game in the fourth quarter, but San Francisco came back to win the game, 21-14, on Steve Young's second touchdown pass to Jerry Rice. SIDELINES **Spurs Give** Van Basten Is Soccer Player of Year

PARIS (Reuters) - Marco van Basten, the Dutch star forward for AC

Milan, on Sunday was named European soccer player of the year. The 28-year-old van Basten, winner in 1988 and 1989, became only the third player to be crowned three times, after Johan Cruyff and Michel Platim. Hristo Stoichkov, the Bulgarian who plays for Barcelona, was

"Van Basten is the best player in the world but this year I have achieved more than him," said Stoichkov, who led Barcelona to the European Cup. "Stoichkov is a great player," van Basten said, "But his behavior isn't always sportsmanlike and that was perhaps taken into account."

Van Basten will be out of action for the next two or three months. He oes into a Swiss clinic on Monday for surgery on an ankle injury. The Frenchman Jean-Pierre Papin, last year's award winner, will face the daunting task of replacing van Basten as Milan's premier attacker.

Former Jets Defender Is Arrested

the team's 21st game of the season. He was replaced within hours Friday afternoon by John Lucas, LYNBROOK, New York (AP) - The former New York Jets defensive end Mark Gastineau was arrested Saturday on Long Island on a warrant stemming from Arizona dug charges, police said. Gastineau, 36, was picked up at a railroad station after an officer who led the Spurs that night to a 122-101 victory over the Dallas

noticed his car parked illegally and checked the license plate.

Redskins' Last Gasp Fails And Eagles Gain Playoffs

clock might have run out. two teams already in the playoffs - the Eagles and the Minnesota

Vikings - don't let down next week. The Redskins need a win, plus either a win by Philadelphia over the New York Giants, or Minnesota over Green Bay, to avoid a touchdown. three-way he with the Packers and

The Redskins' Mark Rypien was 22 of 38 for 272 yards, including a 62-yard TD pass to Ricky Sanders. But he threw interceptions to Joyner and William Thomas with Washington well within field-goal range. The Eagles, ourplayed in the first half and trailing 13-7, took the sec-ond-half kickoff and marched 80 yards in seven plays, with Cunning-ham finding Calvin Williams from 28 yards to give them the lead for 200d

Vikings 6, Steelers 3: In Pitts-burgh, Minnesota survived a succession of missed scoring chances and turnovers to clinch the NFC Central title when Fund Reveiz kicked a 36-

yard field goal as time expired. The Vikings, 10-5, ended a twogame losing streak on a pair of field goals by Reveiz in the fourth quarter as the Steelers, 10-5, the AFC Central champion, were held without a touchdown for the second straight week.

The victory, in Pittsburgh, clinched the Vikings' first division title since 1989.

Terry Allen, the only reliable weapon of a turnover-riddled Vishaky return by quarterback Sean Salisbury.

kings' three fumbles. But Steelers quarterback Bubby Brister was nearly as ineffective, going 13 for

115 yards and two touchdowns and caught six passes for 62 yards as Buffalo overcame a first half deficit Both teams are 11-4, and both

Washington, 9-6, must now beat Los Angeles at home and hope that two teams already in the playoffs The Bills took the lead for the first time in the game with 7:19 left. triots off-guard with an onside kick Quarterback Jim Kelly went recovered at midfield. On the next deep to Andre Reed on fourth and down from the 2-yard line, Thomas swept left and into the end for the

> Packers 28, Rams 13; In Green Bay, Wisconsin, the Packers beat the cold and the Los Angeles for their sixth straight victory, but still Colts 16, Cardinals 13: In India-are on the outside looking in for a napolis, Jeff George racked up 328

The Packers scored four touchdowns in the final 6:48 of the sec-ond quarter for a 28-10 halftime Buckley made two interceptions, returning one for a 33-yard touchdown, and also made a touchdown-

downs - to move within four catches of tying Art Monk's singleseason record of 106 receptions.

win in the Metrodome next Sunday and hope that either Philadelphia

land, Cody Carlson threw two touchdown passes in the final three minotes as Houston eliminated the Browns from playoff contention.

Carlson, sacked six times and possibly playing his last game of the season in relief of injured Warscoring passes to Curtis Duncan and Ernest Givins.

Salisbury, who replaced the inef-fective Rich Gannon after two straight losses, was just 7 for 17 for 131 yards and lost two of the Vihalf for Cleveland, 7-8.

Bengals 20, Patriots 10: In Cin-cinnati, 45,355 chilled fans at Riverfront Stadium saw a wacky game between two inept teams.

The Bengals, 5-10, and Patriots, -13, scored all of their touchdowns in a madcap 50-second span of the first quarter.

Running back Jon Vaughn start-ed the madness by fumbling the ball away at the Patriots 34. A 17yard completion by Cincinnati's David Klingler set up a 6-yard touchdown run by Harold Green.

play, cornerback Jerome Henderson 1, and Reginald Jones was penal-ized for pass interference. On first put the ball on the 1. Derrick Fenner drew an interference penalty that went up the middle for Cincinnati's second touchdown in 25 seconds.

On the kickoff, Vaughn dropped the ball at the goal line, le chased it down, then sprinted 100 yards for a touchdown.

Colts 16, Cardinals 13: In Indiayards passing, including a 57-yarder in Anthony Johnson for a touchdown, as Indianapolis came from behind against Phoenix.

Dean Biasucci's 42-yard field goal with 49 seconds to play broke a 13-13 tie, giving the Colts, 8-7, their fourth straight victory and keeping alive their slim hopes for an AFC wild card.

In Saturday's games: 49ers 21, Buccaneers 14: In San Francisco, the 49ers struggied to victory over Tampa Bay to clinch their sixth NFC West title in seven years and the home-field advantage through the NFC playoffs. Steve Young, Joe Montana's

stand-in for the past two seasons, threw for all three touchdowns for San Francisco, 13-3

Giants 35, Chiefs 21: In East Rutherford, New Jersey, Rodney Hampton ran for three touchdowns and Jeff Hostetler threw for two scores on five consecutive posses

Knicks Feel Defensive But They Take the Heat

The Associated Press

Patrick Ewing had 24 points and a career-high 26 rebounds and Rolando Blackman hroke a last-minute tie with four points, giving the New York Knicks a 91-87 victory over the Miami Heat.

Blackman scored a season-high 23 points in the game Saturday night. New York, in raising its league-best home record to 12-1, also im-proved its NBA lead in a key defensive category, percentage of field goals allowed. The Knicks' opponents are now shooting 42.1 percent. The victory was the 600th of Pat Riley's career. He is the 12th coach to reach that milestone

reach that milestone. Magic 125, Hawks 84: In Atlanta, Dennis Scott scored 28 points and

NBA HIGHLIGHTS

Scott Skiles had 19 points and 10 assists as Orlando druhbed Atlanta in the Hawks' second-worst loss ever at the Omni.

It was the third victory in a row for the Magic, who never trailed after

rookie Shaquille O'Neal's tip-in gave them an early 11-10 lead. Hornets 126, Bullets 117: In Landover, Maryland, Alonzo Mourning scored 24 points and blocked six shots to help Charlotte beat Washington. Harvey Grant had a career-high 41 points on 16-for-23 shooting for the Bullets, who have lost six straight. Larry Johnson had 26 points and Tyrone Bogues handed ont 17 assists for the Hornets.

Tyrone Bogues handed ont 17 assists for the Hornets. Rockets 112, Mavericks 93: In Houston, Hakeem Olajuwon scored 18 points and grabbed 12 rebounds and Otis Thorpe added 18 points and 10 rebounds, leading Houston over Dallas. Houston, 13-7, is off to its best start after 20 games since the 1985-86 scason, when the Rockets were 14-6. The Mavericks, with the worst

record in the NBA, have lost 14 of their last 15 games. Pistons 103, Bucks 90: In Milwaukce, Isiah Thomas scored 26 points and Dennis Rodman collected 22 rebounds as red-hot Detroit rolled over

and Dennis Rodman collected 22 rebounds as real-not Denot rolled over Milwaukee, handing the Bucks their 10th straight loss. The Pistons won for the ninth time in 10 games after a 2-9 start. Milwaukee, which led the Central Division earlier this season, fell to 10-13. **76ers 98, Bulls 96:** In Chicago, Hersey Hawkins scored 24 points and Philadelphia won for only the third time in 14 games. Michael Jordan had his 25th career triple-double for the Bulls, getting 20 noise 10 observed on 410 expired

23 points, 10 rebounds and 10 assists.

'Love Ya': Voznesensky and His Collages

PARIS — Time was when the works of the Russian poet Andrei Voznesensky had printings of 300,000 copies and 14,000 people would attend his readings. Voznesensky's new collection of poems and photographs of his collages is in a limited

MARY BLUME

edition of 1,000 copies and his latest poetry reading, in Siberia, attracted 3,000 listeners. "For Siberia 3,000 is good," he says.

It isn't that Voznesensky's reputation is diminished but that life, and the market, have changed. The new book is a luxury coffee-table volume - the first in Russia, he claims - and it sells for the equivalent of \$230. "There's a lot of oew money around," he says. And in the dismantled, decentralized former Soviet Union there are many, smaller audiences for poetry.

These days, like a Westerner, Voznesensky worries about his cash flow and feels guilty that even so he earns more than most. And in Paris he bought a pocket tear gas dispenser in case Moscow muggers do not recognize their potential victim as a famous poet

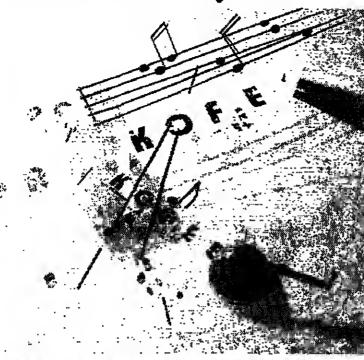

Poetry is still in the genes of Russians and always will be, Voznesensky says, but his country is too full of words, too much of what he calls blah-blah-blah. He is proud of his well-printed new book and of the objects it depicts because he says it shows that Russians can produce craft as well as words. "It is more important than blahblah-blah. A minimum of words and more craftsmen. There is too much speaking in vain - slogans and populism - and no-body works. Nobody."

In the 1970s, Voznesensky wrote a poem calling the young the periscopes of the buried dead. Now he regards history as a burden and in a recent poem urged people not to be immobilized by memory.

"I think in Russia everybody knows enough about the past. If you speak of it you will only be depressed. All my life I was shouting about Stalin, Stalin, Stalin, Now they want to hear something more."

In the future Voznesensky thinks Russians should focus not on words but on visual images. He would rather appear on television than give a reading and dreams of making films. His new collages, which be prefers to call assemblages, are attempts to express poetry in visual terms: "vidioms," or visual anagrams, he calls them,

They were shown last year in a SoHo gallery or New York are on view until Dec. 23 at the Espace Cardin in Paris and will, hehopes, travel next to Moscow's Pushkin museum. Two of them have been bought by the American artist James Rosenquist, one

stunning platform style (he once shared the stage with Laurence Olivier and held his own). He was cossetted and praised, translated by Auden, befriended by Robert Lowell. He met Heidegger, made lithographs with Robert Rauschenberg, and on his cur-

rent trip to Paris dined with Jacques Der-rida. "Deconstruction is just coming to Russia," he says. "They are always behind." His assemblages range in subject from Madonna to a work called "Poetry in Russia?" with blood dripping into a plastic bucket from the stem of the question mark. "Now the blood is coming from poetry but I am afraid it may be coming from the people," he explains.

The fear of a bloody future is also shown in a traditional butcher's chart in which the cuts of meat are chunks of the former Soviet Union. A similar chart shows the fate of the Yugoslav republics. "Self Portrait of the Poet in the 20th Century" consists of two hourglasses bearing Voznesensky's initials through which vowels and consonants fall like grains of sand.

"A lot of these works are about the fate of poets which are not terrific - killed by the government or suicides." he says. In a work dedicated to Osip Mandelstam, the huge "O" forms the dark hole of the Gulag. Mayakovsky, who killed himself while holding the telephone ("like Marilyn Monroe," Voznesensky says) is represented by a telephone dial bearing the letters of his name with a bullet mark in one of the holes. His tribute to Sergei Yesenin depicts the rope with which he hanged himself enwined with the scarf that strangled Isadora Duncan his wife.

Prokofiev, with the part of his name that spells "coffee" enlarged, is flanked by a coffee grinder with a Kremlin dome signifying the government grinding down the art-ist. Similarly, a watercolor portrait of the young Voznesensky has a vegetable grater appended to it. One purely bierary snagram pells out the name Proust with the final "T" seen, as if through the magnifying glass in the "O." "Proust is analytical, he watches everything," Voznesensky explains.

When Voznesensky made a poster celebrating Pasternak, the printer refused to have his name included for fear of reprisals, although this was in 1990. Vornesensky finds many of his compatriots shiftlessly paranoid. As a metaphor be tells about being attacked by three dogs last summer while on a country walk.

"Maybe they were bungry but I love dogs and usually they love me. This time they came straight at me. It is a symbol of our life because it is an undirected anger."

Voznesensky was saved by three passersby who took their time because, as he selfmockingly tells it, he was too conscious of his position as a great poet to shout any-thing as simple as help. "They thought I was acting because I cried in my poetry reading voice, Please people give me a stick so that I can defend myself."

In Moscow no one wanted to take the story for what it was, claiming that Voznesensky had been attacked by the devil. He couldn't make them see that real dogs had bitten him, leaving 32 puncture wounds in his legs.

"I will be marked forever, but luckily not on my face," Voznesensky said. "That would be bad for TV."

LANGUAGE

Very in the Moment, Nonlinearly

By William Safire

7ASHINGTON --- Barbra Streisand, the political W activist and singer, was quoted here as saying about her friend Andre Agassi, the tennis star, that he was "very evolved; more than his linear years very in the moment."

I carefully - perhaps linearly - traced the evolution of evolved to mean "maturing in a way considered positive by the observer; advanced in social awareoess." This definition triggered a refutation from people, mainly Californians, who have a more evolved understanding of new-age terminology. Peter Norton, the computer utilitarian of Santa Monica, defines evolved as "not 'advanced in social awareness' but advanced in spiritual evolution, in the Buddhist and Hindu sense." My icon-happy correspondent adds drawings of a straight arrow to indicate linear years, and of an arrow with a loop in its shaft to denote spiritual years.

Alan Alda, the actor, has long been a Lexicographic Irregular; he knows the difference between a skit and a sketch, and knows the unlikely meaning of apple box, which I do not. Alda writes that "Both words and crystals are put to uses in California that seem odd to people in the East. Rather than having the connotation of 'social awareness,' I think the term evolved is

used here in a more spiritual context. "I remember first hearing the word evolved used in this way several years ago when people would say that someone was 'very evolved spiritually.'' Alda contin-ues. "This was a compliment derived from the belief — fashionable for a while in this country, especially in California — that with every incarnation you improve as a person until you evolve into a model creature. Agents and other meat-caters were considered to be recent entrants into this process." He concludes that the passive is evolved is rooted in that onward-and-upward assumption - now considered erroneous by nonlinear thinkers, often vegetarian - that humans are at the top of the evolutionary scale. "So, to say that Agassi is 'very

evolved' is to say that spiritually he's tops." This Alda interpretation is reinforced by Tama Starr of New York, anthor of "The Natural Inferiority of Women," an excoriation of misguided males: The rather complex idea packed into evolved is that while all souls journey from incarnation to incarna-tion, acquiring spiritual wisdom along the way, some (called 'old souls' in the jargon) have had more of these opportunities than others . . . and thus have become more evolved." Starr adds: "I am not inventing or hallucinating this. It is a cliché from the Middle New

Age (circa 1971)." I reacted to the torrent of new-age mail by directing an October query to Streisand about her meaning. She wrote back: "Thank you for the offer to respond. If you vote for Clinton, I just might."

п

Others, however, have come to my aid in the matter of in the moment, which I treated as a variant of up to the minute or the French au courant.

"She used in the moment in the way it is often used by actors and acting teachers," writes George Cuttingh president of the American Academy of Dramatic Arts. "A performer's desirable state of total, relaxed commitment to (or concentration on) the moment at hand, free

of concern with previous or future moments." He notes the application of the precepts of Zen Buddhism to Agassi's profession in W. Timothy Gallwey's book "The Inner Game of Tennis."

"A person who is in the moment," writes David Smith, a Harvard graduate student of history, "is one who avoids the common tendency of dwelling on the past, the future or anything extrinsic to the moment at hand . . . similar to experiencing an Eastern state of transcendental immanence." Contrariwise, "one who is au courant is probably at great pains to heed the dictates of contemporary fashion."

Linda Healey, who works for the International Herald Tribune, agrees that in the moment has nothing to do with being "up-to-date or in tune with the Zeitgeist" She considers the practitioner to be "totally absorbed

in each instant as it happens, like a practitioner of Zen who aims to eliminate the barrier between ego and experience."

Obviously this Buddhist thinking has had an impact on the stage. Konstantin Stanislavsky, the Russian director and acting theorist, urged actors to behave as if the action were actually taking place at the time of performance. "In the post-Stanislavsky experiments of the 1960s and "70s," writes Richard E. Kramer of New York, "this concept was expanded to include the notion that the performance itself is really happening now, and the actor is also a real person in the presence of other real people, the audience."

Which brings us back to Alan Alda for his analysis of this Zen phrase's application to acting: "You have to be acquainted with the concept of acting 'moment to moment.' This means when you are playing a scene you try to deal with what is happening right now. You don't bring a predetermined attitude onstage. You do not pretend to be listening; you listen. You stay in the moment."

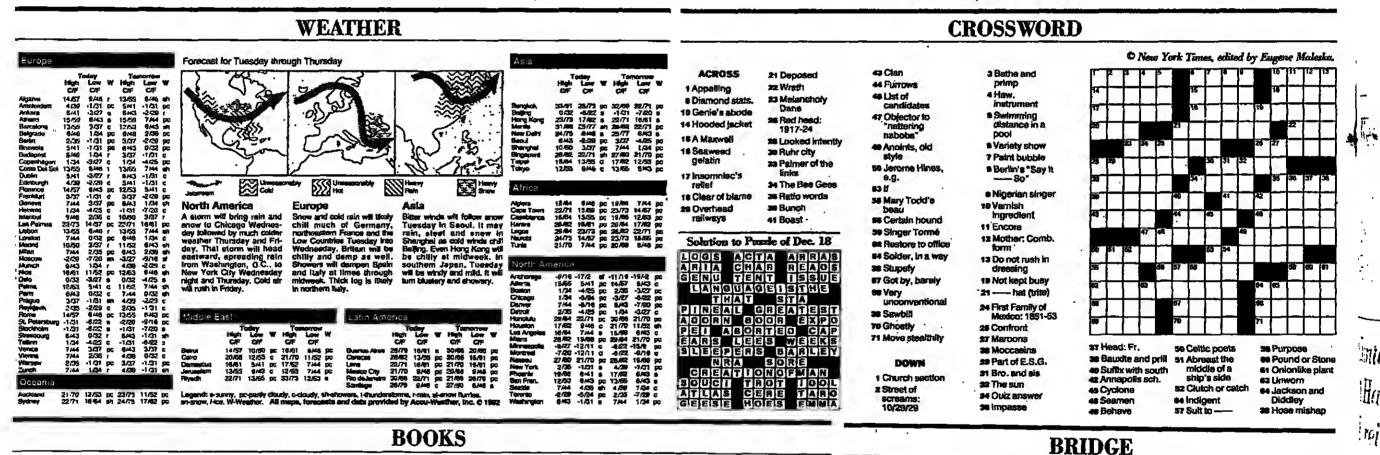

It's easy enough to spoof new-age jargon and its persontras, but language mavens should concentrate on what the speaker or writer means, and not blithely assume it to be what the reader or audience brings to it. That was my error, I applied my own logic to Strei-sand's words, a reading that turned out to be a type of folk etymology that linguists should guard against.

"We tend to lean toward theories of derivation that tie in with our own personal experience." goes Alda's mash note, in gentle reproof to my derogation of show-biz lingo as an anything-goes world. "I often wonder bow many definitive statements of how a word phrase got that way simply reflect a comfortable feeling on someone's part that it sounds like a duck so it must be a duck.

"If someone on a set asked you for a half-apple and you started peeling a piece of fruit," be zings, "you might hear a colorful word or two about Potomac Pundits.
